1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents and employees, and agrees to save them harmless from any and all claims, demands, lawsuits or liability whatsoever for any loss, damage, injury or death, including all costs and expenses incident thereto, by reason of the foregoing. any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. 8.03 Period of Partial Exemption
8.04 Amounts Eligible for Exemption
8.05 Limitations
8.06 Applications
8.07 Approval
8.08 Exemption Repealed
8.09 Dual Exemptions Prohibited

8.01 PURPOSE. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. "Actual value added" means the actual value added as of the first year for which the exemption is received.

2. "Distribution center" means a building or structure used primarily for the storage of goods that are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.

3. "New construction" means new buildings and structures and includes new buildings and structures that are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure that does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from the City Council of the City upon the recommendation of the Iowa Department of Economic Development.

4. "Research-service facilities" means a building or group of buildings devoted primarily to research and development activities, including (but not limited to) the design and production or manufacture of prototype products for experimental use and corporate research services that do not have a primary purpose of providing on-site services to the public.

5. "Warehouse" means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the *Code of Iowa*, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers is eligible to receive a partial exemption from taxation for a period of five (5) years.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added, which is eligible to be exempt from taxation, shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, seventy-five percent (75%)
2. For the second year, sixty percent (60%)
3. For the third year, forty-five percent (45%)
4. For the fourth year, thirty percent (30%)
5. For the fifth year, fifteen percent (15%)

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

(Code of Iowa, Sec. 427B.4)

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.

2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least thirty (30) days after such hearing, the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

CHAPTER 36

HAZARDOUS SUBSTANCE SPILLS

36.01 Purpose
36.02 Definitions
36.03 Cleanup Required
36.04 Liability for Cleanup Costs
36.05 Notifications
36.06 Police Authority
36.07 Liability

36.01 PURPOSE. In order to reduce the danger to the public health, safety, and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. "Cleanup" means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove, or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381[1])

2. "Hazardous condition" means any situation involving the actual, imminent, or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State, or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[4])

3. "Hazardous substance" means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. "Hazardous substance" may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. "Responsible person" means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted

into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or Federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.

2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.

3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.

4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused by that person.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the Police Chief of the occurrence of a hazardous condition as soon as possible but not later than six (6) hours after the onset of the hazardous condition or discovery of the hazardous condition. The Police Chief shall immediately notify the Department of Natural Resources.

2. Any other person who discovers a hazardous condition shall notify the Police Chief, who shall then notify the Department of Natural Resources.

36.06 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and

2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any law enforcement officer issued under this section.

36.07 LIABILITY. The City shall not be liable to any person for claims of damages, injuries, or losses resulting from any hazardous condition, unless the City is the responsible person as defined in Section 36.02(4).

CHAPTER 46

MINORS

46.01 Curfew
46.02 Cigarettes and Tobacco
46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:

    A. "Emergency errand" means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.

    B. "Knowingly" means knowledge that a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult's custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.

    C. "Minor" means any unemancipated person under the age of eighteen (18) years.

    D. "Nonsecured custody" means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room that is not designed, set aside, or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person's parents or other responsible adult or for other administrative purposes; but not for longer than six (6) hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.

    E. "Public place" includes stores, parking lots, parks, playgrounds, streets, alleys, and sidewalks dedicated to public use and also includes such parts of buildings and other premises, whether publicly or privately owned, that are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has

access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

F. "Responsible adult" means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.

2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of 11:00 p.m. and 5:00 a.m. on any day of the week or on any weekend.

3. Exceptions. The following are exceptions to the curfew:

A. The minor is accompanied by a responsible adult.

B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.

C. The minor is present at or is traveling between home and one of the following:

(1) Minor's place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end or before the beginning of work;

(2) Minor's place of religious activity or, if traveling, within one hour after the end or before the beginning of the religious activity;

(3) Governmental or political activity or, if traveling, within one hour after the end or before the beginning of the activity;

(4) School activity or, if traveling, within one hour after the end or before the beginning of the activity;

(5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end or before the beginning of the activity.

D. The minor is on an emergency errand for a responsible adult;

E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.

4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor's presence falls within one of the above exceptions.

5. Enforcement Procedures.

A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's

license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.

B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any nonsecured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties. Any parent, guardian, or other adult person responsible for or having the legal care, custody, and control of any minor, and who allows, permits, or suffers such minor to violate any of the provisions of this chapter, shall be guilty of a simple misdemeanor and upon conviction thereof shall be punished by a fine not to exceed $100.00 for the first offense and not to exceed $250.00 for a second or subsequent offenses. Any owner or operator who allows, permits, or suffers any minor to be in or upon any place of business or amusement in violation of this chapter and who fails to order such minor to leave the premises, or fails to notify the Police Department that such minor was ordered to leave the premises and has refused, shall be guilty of a simple misdemeanor and upon conviction thereof shall be punished by a fine not to exceed $100.00 for a first offense and not to exceed $250.00 for a second or subsequent offenses.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under eighteen (18) years of age to smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products, or cigarettes. Possession of cigarettes or tobacco products by a person under eighteen years of age shall not constitute a violation of this section if said person possesses the cigarettes or tobacco products as part of the person's employment and said person is employed by a person who holds a valid permit under Chapter 453A of the *Code of Iowa* and lawfully offers for sale or sells cigarettes or tobacco products.

(Code of Iowa, Sec. 453A.2)

46.03 CONTRIBUTING TO DELINQUENCY. It is unlawful for any person to encourage any child under eighteen (18) years of age to commit any act of delinquency.

(Code of Iowa, Sec. 709A.1)

75.05 Operation of All-Terrain Vehicles
75.06 Negligence
75.07 Accident Reports
75.08 Equipment on Motor Vehicles

75.01 PURPOSE. The purpose of this chapter is to regulate the operation of all-terrain vehicles and snowmobiles within the City.

75.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. "All-terrain vehicle" or "ATV" means a motorized vehicle, with not less than three and not more than six non-highway tires, that is limited in engine displacement to less than 1,000 cubic centimeters and in total dry weight to less than 1,200 pounds and that has a seat or saddle designed to be straddled by the operator and handlebars for steering control.

(Code of Iowa, Sec. 321I.1)

2. "Off-road motorcycle" means a two-wheeled motor vehicle that has a seat or saddle designed to be straddled by the operator and handlebars for steering control and that is intended by the manufacturer for use on natural terrain. "Off-road motorcycle" includes a motorcycle that was originally issued a certificate of title and registered for highway use under Chapter 321 of the *Code of Iowa*, but that contains design features that enable operation over natural terrain. An operator of an off-road motorcycle is also subject to the provisions of this chapter governing the operation of all-terrain vehicles.

(Code of Iowa, Sec. 321I.1)

3. "Snowmobile" means a motorized vehicle that weighs less than 1,000 pounds, that uses sled-type runners or skis, endless belt-type tread with a width of 48 inches or less, or any combination of runners, skis, or tread, and is designed for travel on snow or ice. "Snowmobile" does not include an all-terrain vehicle that has been altered or equipped with runners, skis, belt-type tracks, or treads.

(Code of Iowa, Sec. 321G.1)

(Ord. 449 – Dec. 13 Supp.)

75.03 GENERAL REGULATIONS. Iowa Code Section 321I.10 Subsection 3 states that a City may regulate the operation of registered ATVs and may designate streets under the jurisdiction of the City within its corporate limits, and two-lane primary and secondary road extensions in the City, which may be used for the operation of such vehicles. The City of Cresco does not allow for the operation of an ATV, off-road motorcycle, or snowmobile on any streets within the City. Exceptions and rules are listed in Sections 75.04 and 75.05.

(Ord. 498 – May 23 Supp.)

75.04 OPERATION OF SNOWMOBILES. The operators of snowmobiles shall comply with the following restrictions as to where snowmobiles may be operated within the City:

1. Streets. Snowmobiles may be operated upon streets that have not been plowed during the snow season and on any other streets in the City, except the following streets on which their operation is prohibited:

A. The entire length of Elm Street, Third Avenue and Eighth Avenue.

B. First Avenue from Second Street East to Sixth Street East.

(Code of Iowa, Sec. 321G.9[4c])

B. Direct Crossing. Snowmobiles may make a direct crossing of a prohibited street provided all of the following occur:

(1) The crossing is made at an angle of approximately ninety degrees (90°) to the direction of the street and at a place where no obstruction prevents a quick and safe crossing;

(2) The snowmobile is brought to a complete stop before crossing the street;

(3) The driver yields the right-of-way to all on-coming traffic that constitutes an immediate hazard; and

(4) In crossing a divided street, the crossing is made only at an intersection of such street with another street.

(Code of Iowa, Sec. 321G.9[2])

3. Railroad Right-of-Way. Snowmobiles shall not be operated on an operating railroad right-of-way. A snowmobile may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321G.13[1h])

4. Trails. Snowmobiles shall not be operated on all-terrain vehicle trails except where so designated.

(Code of Iowa, Sec. 321G.9[4f])

5. Parks and Other City Land. Snowmobiles shall not be operated in any public park, playground, recreational area or upon any other City-owned property without the express permission of the City. A snowmobile shall not be operated on any City land without a snow cover of at least one-tenth of one inch.

6. Sidewalk or Parking. Snowmobiles shall not be operated upon the public sidewalk or that portion of the street located between the curb line and the sidewalk or

property line commonly referred to as the "parking" except for purposes of crossing the same to a public street upon which operation is authorized by this chapter.

7. Private Property. Snowmobiles shall not be operated on any private property unless permission has been granted by the owner or occupant of said private property.

75.05 OPERATION OF ALL-TERRAIN VEHICLES. The operators of ATVs shall comply with the following restrictions as to where ATVs may be operated within the City:

1. Streets. ATVs shall not be operated on a City street unless one or more of the following conditions apply:

A. The operation is between sunrise and sunset and is incidental to the vehicle's use for agricultural purposes. For purposes of this paragraph, "incidental to the vehicle's use for agricultural purpose" includes stopping in the course of agricultural use to obtain fuel for the ATV or to obtain food or a nonalcoholic beverage for the operator.

B. The operation is incidental to the vehicle's use for the purpose of surveying by a licensed engineer or land surveyor.

C. The ATV is operated by an employee or agent of a political subdivision or public utility for the purpose of construction or maintenance on or adjacent to the City street.

D. The ATV is operated by an employee or agent of a public agency as defined in Iowa Code Section 34.1 for the purpose of providing emergency services or rescue.

E. The ATV is operated for the purpose of mowing, installing approved trail signs, or providing maintenance on a snowmobile or ATV trail designated by the Department of Natural Resources.

F. The ATV is operated for the purpose of snow removal and travels on the most direct route between properties or to obtain fuel.

(Code of Iowa, Sec. 321I.10[4])

3. Railroad Right-of-way. ATVs shall not be operated on an operating railroad right-of-way. An ATV may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321I.14[1h])

4. Parks and Other City Land. ATVs shall not be operated in any park, playground or upon any other City-owned property without the express permission of the City.

5. Sidewalk or Parking. ATVs shall not be operated upon the public sidewalk or that portion of the street located between the curb line and the sidewalk or property line commonly referred to as the "parking."

6. A person operating an ATV in the City pursuant to Subsection 1, Paragraphs "A" or "F," shall not operate upon any City street that is a primary road extension through the City. However, ATV's may cross such a primary road extension. Within

the City of Cresco, "primary road extension" shall be taken to mean Highway 9 (2nd Avenue SE/SW), 3rd Street West (Granger), and 3rd Street SW (Protivin Road).

7. A person operating an ATV on a highway shall have a valid driver's license and operate the vehicle at speeds of thirty-five miles per hour or less. In addition, a person operating an ATV on a highway pursuant to Subsection 1, Paragraphs "B" through "F," shall be at least eighteen years of age and have financial liability coverage in effect for the vehicle and carry proof of such financial liability coverage in accordance with Section 321.20B.

(Section 75.05 – Ord. 498 – May 23 Supp.)

75.06 NEGLIGENCE. The owner and operator of an ATV or snowmobile are liable for any injury or damage occasioned by the negligent operation of the ATV or snowmobile. The owner of an ATV or snowmobile shall be liable for any such injury or damage only if the owner was the operator of the ATV or snowmobile at the time the injury or damage occurred or if the operator had the owner's consent to operate the ATV or snowmobile at the time the injury or damage occurred.

(Code of Iowa, Sec. 321G.18 and 321I.19)

75.07 ACCIDENT REPORTS. Whenever an ATV or snowmobile is involved in an accident resulting in injury or death to anyone or property damage amounting to one thousand five hundred dollars ($1,500.00) or more, either the operator or someone acting for the operator shall immediately notify a law enforcement officer and shall file an accident report, in accordance with State law.

(Code of Iowa, Sec. 321G.10 and 321I.11)

The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten (10) days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the ten-day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder, or claimant shall pay all towing and storage fees as established by the storage facility, whereupon the vehicle shall be released.

(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.

(Code of Iowa, Sec. 321.89[4])

80.07 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for ninety (90) days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

(Code of Iowa, Sec. 321.89[4])

80.09 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle, or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle, or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within one year after it is issued. The permit may be revoked at any time for any violation of these chapters.

(Code of Iowa, Sec. 372.13[4])

90.06 TAPPING AND CONNECTION CHARGES.

1. Tapping Charge. There shall be a tapping charge in the amount of $100.00 for each service connection plus the cost of the saddle needed to make the connection.

2. Hookup Charge. There shall be a hookup charge in the amount of $150.00 for each service connection.

3. Connection Charge. In addition to any other fees or charges established in this chapter, there shall be a connection charge of not less than $5,000.00 for properties located outside of the City limits to reimburse the City for making and supervising connection of properties to the water service facilities. The City Council shall have the discretion to waive the connection charge in the event that the property to be connected is located in an area that is voluntarily annexed to the City.

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural, or enforcement provisions, of the *State Plumbing Code*.

90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a State-licensed plumber.

90.09 EXCAVATIONS. All trench work, excavation, and backfilling required in making a connection shall be performed in accordance with the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances. In addition, any service lines that must cross a finished street, alleyway or other public thoroughfare shall be bored under such street, alley, or other public thoroughfare to avoid damage to such street, alley, or public thoroughfare. All boring costs shall be borne by the property owner or customer.

90.10 TAPPING MAINS. All taps into water mains shall be made by the Water Department unless permission is given by the Superintendent for the property owner to make the tap under the direct supervision of the Superintendent and in accord with the following:

1. Independent Services. No more than one house, building or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building or premises may be shut off independently of the other.

2. Sizes and Location of Taps. All mains four (4) inches or less in diameter shall receive no larger than a ¾-inch tap. All mains six (6) inches and larger in diameter shall receive no larger than a one-inch tap. Where a larger connection than a one-inch tap is desired, two (2) or more small taps or saddles shall be used, as the Superintendent shall order. All taps in the mains shall be made at or near a 45-degree

angle of the pipe, at least eighteen (18) inches apart. No main shall be tapped nearer than two (2) feet of the joint in the main.

3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.

4. Private Water Lines. The connection or reconnection of any private water line which requires a "T" to be installed in the City water main shall be made by the property owner at the owner's expense.

5. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

(Code of Iowa, Sec. 372.13[4])

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the curb valve must be standard weight Type K copper. Water service pipes from the curb valve to the meter setting must be standard weight Type K copper or 200 psi plastic. If plastic is used, a tracing wire must be laid with the line in the ditch. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settling or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection, and maintenance of the water service pipe from the main to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe that is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance, the City may do so and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed, within the public right-of-way, a main shut-off valve of the inverted key type on the water service pipe at the outer sidewalk line with a suitable lock of a pattern approved by the Superintendent. The curb valve shall be covered with a heavy metal cover having the letter "W" marked thereon, visible and even with the pavement or ground. The curb valve must be maintained in working order by the property owner. Failure to maintain the curb valve may result in the City repairing the curb valve and assessing the cost to the property owner.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system may be inspected and approved by the Superintendent before they are covered. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for 24 hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the Superintendent shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters which is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE. It is unlawful for any person except the Superintendent or a plumber to turn water on at the curb valve, and said plumber shall take no action contrary to the orders of the Superintendent and shall leave the water off or on, as directed by the Superintendent.

90.20 FIRE HYDRANTS. Fire hydrants located in the City are for the purpose of fire protection and must comply with City policy and be approved by the Superintendent. No person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

90.21 CONTROL OF WATER SUPPLY. Whenever in the judgment of the Council it becomes necessary to conserve the water supply in the public interest, a resolution may be adopted to:

1. Regulate during certain hours or on certain days of the week the water that may be used for car and vehicle washing, watering lawns, gardens, or other similar uses or prohibit the use of water for any such purposes for such time as the Council may determine;

2. Regulate the amount of water that any customer may use on any particular day or for any period of time and specify the purposes for which water may be used by any customer; or

3. Make additional rate charges for special uses by resolution or contract.

90.22 REGULATION OF PRIVATE WELLS. No private wells may be constructed or drilled within the City limits without a permit. Permit applications shall be obtained from and presented to the Public Works Director. The Public Works Director shall present all applications to the Council for consideration and grant or denial. The Public Works Director shall make recommendations to the Council regarding the grant or denial of any application, but the final decision shall rest with the Council. In considering the grant or denial of any application for construction or drilling of a well within City limits, the Council shall consider whether the property is furnished with pure and wholesome water, whether it is safe to construct or drill a well on the premises, and any other considerations which the Council deems appropriate.

91.06 METER COSTS. The full cost of any meter larger than that required for a single-family residence shall be paid to the City by the property owner or customer prior to the installation of any such meter by the City, or, at the sole option of the City, the property owner or customer may be required to purchase and install such meter in accordance with requirements established by the City.

91.07 PROTECTION OF METER FROM FREEZING. When any customer allows the water meter to freeze by the customer’s failure to protect the meter from frost, the customer will be charged for repairing the meter. Failure to pay for such repairs will entitle the City to shut off the water supply.

91.08 METER REPAIRS. Whenever a water meter owned by the City is found to be out of order, the Superintendent shall have it repaired. If it is found that damage to the meter has occurred due to the carelessness or negligence of the customer or property owner, or the meter is not owned by the City, then the property owner shall be liable for the cost of repairs.

91.11 YARD METERS. A yard meter may be installed to measure water, for outdoor use only, that is not disposed of through the public sanitary sewer system. Permitted uses for water measured by a yard meter include watering lawns and gardens, filling swimming pools, washing cars, etc. Uses not allowed include connection to any outdoor shower, water heater, geothermal appliance or any auxiliary building. The following regulations apply to yard meters:

1. The customer must purchase the yard meter from the City.

2. The meter piping shall be installed by a licensed plumber. The meter must be "T'ed" off the service line before the standard meter, must have a valve on each side of the yard meter and must have an outside reader. Only one outdoor faucet shall be allowed to be connected to the yard meter. The installation and removal of a yard meter shall be done by the City.

3. Yard meters will be read by the City at the same time regular water meters are read. No sewer charge will be assessed to water usage through the yard meter.

4. No water from a yard meter may be allowed to enter the sanitary sewer system. A violation of this subsection shall result in full sewer charges being added to the water bill, removal of the yard meter permanently, and shall be considered a violation of this Code of Ordinances.

The landlord's written notice shall contain the name of the tenant responsible for charges, the address of the residential or commercial rental property that the tenant is to occupy, and the date that the occupancy begins. Upon receipt, the City shall acknowledge the notice and deposit. A change in tenant for a residential rental property shall require a new written notice to be given to the City within thirty (30) business days of the change in tenant. A change in tenant for a commercial rental property shall require a new written notice to be given to the City within ten (10) business days of the change in tenant. A change in the ownership of the residential rental property shall require written notice of such change to be given to the City within thirty (30) business days of the completion of the change of ownership. A change in the ownership of the commercial rental property shall require written notice of such change to be given to the City within ten (10) business days of the completion of the change of ownership.

92.09 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. If the customer is a tenant and if the owner or landlord of the property or premises has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate

persons by ordinary mail not less than thirty (30) days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

92.10 CUSTOMER DEPOSITS. There shall be required a deposit of $80 from every residential, $100 from every commercial, and $200 from every industrial customer. The deposit is intended to guarantee the payment of bills for service. This deposit will be applied to the customer's account or refunded after three years with good credit history. The deposit will be applied to final water billing if services are discontinued. ***(Ord. 475 – Jul. 19 Supp.)***

(Code of Iowa, Sec. 384.84)

92.11 TEMPORARY VACANCY. A property owner may request water service be temporarily discontinued and shut off at the curb valve when the property is expected to be vacant for an extended period of time. There shall be a $10.00 fee collected for shutting the water off at the curb valve and a $10.00 fee for restoring service. During a period when service is temporarily discontinued as provided herein, there shall be no minimum service charge. The City will not drain pipes or pull meters for temporary vacancies unless the water cannot be shut off at the curb valve.

92.12 CUSTOMER-REQUESTED TERMINATION OF SERVICE. A customer may request water service to be terminated by informing City Hall. No water service shall be considered terminated until the water department has terminated service at the curb valve and removed the water meter. All water meters shall be removed and installed by the water department only. There shall be a $10.00 fee collected for shutting the water off at the curb valve and a $10.00 fee for restoring service. If the renter is not delinquent but the property owner wants the water turned off, the City cannot turn off the water.

BENEFITED WATER SERVICE AREA NO. 1

93.01 Definitions
93.02 Benefited Service Area
93.03 Connection Fee
93.04 Connection Permit
93.05 Violation

93.01 DEFINITIONS. For use in this chapter the following terms are defined:

1. "Benefited Service Area" means a designated area to which water service will be available by a water main of a given design and capacity.

2. "Connection" means any act that results in a direct or indirect connection to a City water utility, including but not limited to, the connection of a private water system to a lateral main or the connection of a lateral water line serving a subdivision to a water main.

3. "Lot" means a parcel of land under one ownership. Two or more contiguous parcels under common ownership may be treated as one lot for the purposes of this chapter if the parcels bear common improvements or if the Council finds that the parcels have been assembled into a single unit for the purpose of use or development.

4. "Original Cost" means all costs incurred in the design, construction and financing of City water utilities, including but not limited to, the cost of labor, materials, engineering, fees, legal fees, closing costs, and the reasonable loss of return on City cash reserves used to finance construction or the interest on any indebtedness incurred to finance construction.

5. "Water Utility" means and includes water mains or trunk lines.

6. "Service Area No. 1" means an area within City limits of Cresco, Iowa, described as follows:

Lot 1, Cresco Industrial Park Addition to City of Cresco, Howard County, Iowa

93.02 BENEFITED SERVICE AREA. The lots within Service Area No. 1 constitute a Benefited Service Area to be served by connection to the City water utility. The original cost to the City of extending the City water utility to the properties in Service Area No. 1 is $26,926. The Benefited Service Area defined as Service Area No. 1 contains approximately 491 square feet.

93.03 CONNECTION FEE. There is imposed on all lots within Service Area No. 1 for which a water connection fee has not previously been paid, a fee for connection to the City water utility. The connection fee shall be equal to that percentage of the original cost of bringing the City water utility to each respective service area that equals the percentage of area that the connected lots constitutes in relation to the entire Service Area. In Service Area No. 1 the connection fee shall be $54.80 per square foot. Connection fees collected by the City Treasurer shall be used only for the purpose of operating or paying debt of the City water utility. The water connection fees established by this chapter are in addition to, and not in lieu

of, any fees for connection required under the plumbing code, other provisions of the municipal code, or City policy.

93.04 CONNECTION PERMIT. Before any connection is made to a City water utility to serve a lot in Service Area No. 1, the owner of the lot or lots to be served by the connection shall file an application on a form provided by the City, with the Public Works Director. Upon approval of the application, the Public Works Director shall advise the applicant of the connection fee to be paid. Upon payment of the connection fee to the City Treasurer, or upon entry into an agreement to pay said fee in installments if so allowed under separate resolution of the City Council, the City shall connect the service.

93.05 VIOLATION. In the event a connection is made to a City water utility serving Service Area No. 1 without permit required by this chapter, or without payment of the connection fee set forth in this chapter, or if any installment payment of such fee as provided by subsequent resolution of the Council is not made, the City shall disconnect such service from the City water utility until such time as the property owner has received a permit for the connection and paid the required connection fee.

BUILDING SEWERS AND CONNECTIONS

96.01 Permit
96.02 Connection Charge
96.03 Plumber Required
96.04 Excavations
96.05 Connection Requirements
96.06 Interceptors Required
96.07 Sewer Tap
96.08 Inspection Required
96.09 Property Owner's Responsibility
96.10 Abandoned Connections
96.11 Abatement of Violations

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 CONNECTION CHARGE. The person who makes the application shall pay a connection charge in the amount of two hundred fifty dollars ($250.00) for each connection to the public sewer or any lateral thereof.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.04 EXCAVATIONS. All trench work, excavation and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.

2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

A. Recommended grade at one-fourth (1/4) inch per foot.

B. Minimum grade of one-eighth (1/8) inch per foot.

C. Minimum velocity of 2.00 feet per second with the sewer half full.

D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).

B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.

C. Ductile iron water pipe – A.W.W.A. C-151.

D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall that might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings.

Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.

2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.

3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed by the City, at a cost to the plumber or owner of one hundred fifty dollars ($150.00) per tap. Upon completion of the tap, the plumber shall then connect the building sewer to the saddle. If the connection involves replacement of an existing building sewer and a new tap is not required, the City will provide the plumber with a saddle. The plumber or owner shall then pay the City for the full cost of such saddle as well as a $20.00 inspection fee. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the

Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABANDONED CONNECTIONS. When a building sewer or service is abandoned, the service line shall be plugged watertight as closely as possible to the sewer main. The location of the end of the abandoned service line shall be measured from at least three (3) permanent physical features in the immediate vicinity and said measurements shall be given to the Superintendent.

96.11 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3])

CHAPTER 97

USE OF PUBLIC SEWERS

97.01 Storm Water
97.02 Surface Waters Exception
97.03 Prohibited Discharges
97.04 Restricted Discharges
97.05 Restricted Discharges; Powers
97.06 Special Facilities
97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.

3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

than 350 parts per million by weight of suspended solids; or (iii) having an average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.

B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to: (i) reduce the biochemical oxygen demand to 300 parts per million by weight; or (ii) reduce the suspended solids to 350 parts per million by weight; or (iii) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty degrees (150º) F (65º C).

2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.

3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32º F and 150º F (0º to 65º C).

4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch in any dimension.

5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.

6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.

7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, Federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.

10. Unusual Wastes. Materials that exert or cause:

A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).

C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.

12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.

13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES – POWERS. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;

2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;

3. Controls Imposed. Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

CHAPTER 100

BENEFITED SANITARY SEWER SERVICE AREAS

100.01 Definitions
100.02 Benefited Service Area No. 1
100.03 Benefited Service Area No. 2
100.04 Benefited Service Area No. 3

100.01 DEFINITIONS. For use in this chapter the following terms are defined:

1. "Benefited service area" means a designated area to which sanitary sewer service will be provided by a sanitary sewer utility of a given design and capacity.

2. "Connection" means any act that results in a direct or indirect discharge into a City sewer utility, including but not limited to, the connection of a private sewer system to a lateral sewer or manhole or the connection of a lateral sewer serving a subdivision to a trunk sewer or manhole.

3. "Lot" means a parcel of land under one ownership. Two or more contiguous parcels under common ownership may be treated as one lot for the purposes of this chapter if the parcels bear common improvements or if the Council finds that the parcels have been assembled into a single unit for the purpose of use or development.

4. "Original cost" means all costs incurred in the design, construction and financing of City sewer utilities, including but not limited to, the cost of labor, materials, engineering fees, legal fees, closing costs, and the reasonable loss of return on City cash reserves used to finance construction or the interest on any indebtedness incurred to finance construction.

5. "Sanitary sewer utility" means and includes sanitary sewer trunk lines and sanitary sewer interceptors, sanitary sewer force mains, pumping stations and detention basins.

100.02 BENEFITED SERVICE AREA NO. 1. The provisions of this section apply to Service Area No. 1, an area within the City limits of Cresco, Iowa, described as follows:

Block twenty-three (23) of the Original Plat of the City of Cresco, Howard County, Iowa.

The lots within Service Area No. 1 constitute a Benefited Service Area to be served by connecting to the City sewer utility. The original cost to the City of extending the City sewer utility to the properties in Service Area No. 1 is $25,271.04. The Benefited Service Area No. 1 contains approximately 800 linear feet.

1. Connection Fee. There is imposed on all lots within Service Area No. 1 for which a sewer connection fee has not previously been paid, a fee for connection to the City sewer utility. The connection fee shall be equal to that percentage of area that the connected lot constitutes in relation to the entire service area. In Service Area No. 1 the connection fee shall be $15.75 per linear foot. Connection fees collected by the City shall be used only for the purpose of operating or paying debt of the City sewer utility. The sewer connection fee established by this section is in addition to, and not in lieu of, any other fees for connection required under the plumbing chapters, other provisions of this Code of Ordinances, or City policy.

2. Connection Permit. Before any connection is made to a City sewer utility to serve a lot in Service Area No. 1, the owner of the lot or lots to be served by the connection shall file an application with the Public Works Director, on a form provided by the City. Upon approval of the application, the Public Works Director shall advise the applicant of the connection fee to be paid. Upon payment of the connection fee to the City, or upon entry into an agreement to pay said fee in installments if so allowed under separate resolution of the City Council, the City shall issue a connection permit. Upon completion of the connection, the owner of the lot or lots being connected shall notify the Public Works Director and the Public Works Director shall inspect the connection.

3. Separate Service. If the owner of two contiguous parcels affected by this section desires to make a connection to the City sewer utility which will serve only one such parcel, and the parcels do not bear common improvements and have not been assembled into a single unit for the purpose of use or development, the owner may make application to the City Council to connect each such parcel separately. If the Council finds that the parcels do not bear common improvements and have not been assembled into a single unit for the purpose of use or development, the original connection fee shall be calculated and paid only upon the parcel or parcels that will be served by the connection. A new application must be filed, and a connection fee paid, when the parcel or parcels not served by the original connection to the City sewer utility are connected.

4. Violation. In the event a connection is made to a City sewer utility serving Service Area No. 1 without the permit required by this section, or without payment of the connection fee set forth in this section, or if any installment payment of such fee as provided by subsequent resolution of the Council is not made, the City shall disconnect such service from the City sewer utility until such time as the property owner has received a permit for the connection and paid the required connection fee.

100.03 BENEFITED SERVICE AREA NO. 2. The provisions of this section apply to Service Area No. 2, an area within the City limits of Cresco, Iowa, described as follows:

Lots 3, 4, 5, 6, 7 of the Sunrise Addition, 126.25 feet of the East Section of Lot 16 and all of Lot 17 of the irregular survey of the N½ SW¼ Section 26-99-11.

The lots within Service Area No. 2 constitute a Benefited Service Area to be served by connecting to the City sewer utility. The original cost to the City of extending the City sewer utility to the properties in Service Area No. 2 is $14,853.00. The Benefited Service Area No. 2 contains approximately 850 linear feet.

1. Connection Fee. There is imposed on all lots within Service Area No. 2 for which a sewer connection fee has not previously been paid, a fee for connection to the City sewer utility. The connection fee shall be equal to that percentage of the original cost of bringing the City sewer utility to each respective service area that equals the percentage of area that the connected lot constitutes in relation to the entire service area. In Service Area No. 2 the connection fee shall be $8.74 per linear foot. Connection fees collected by the City shall be used only for the purpose of operating or paying debt of the City sewer utility. The sewer connection fee established by this section is in addition to, and not in lieu of, any other fees for connection required under the plumbing chapters, other provisions of this Code of Ordinances, or City policy.

2. Connection Permit. Before any connection is made to a City sewer utility to serve a lot in Service Area No. 2, the owner of the lot or lots to be served by the connection shall file an application with the Public Works Director, on a form provided by the City. Upon approval of the application, the Public Works Director shall advise the applicant of the connection fee to be paid. Upon payment of the connection fee to the City, or upon entry into an agreement to pay said fee in installments if so allowed under separate resolution of the City Council, the City shall connect the service.

3. Violation. In the event a connection is made to a City sewer utility serving Service Area No. 2 without the permit required by this section, or without payment of the connection fee set forth in this section, or if any installment payment of such fee as provided by subsequent resolution of the Council is not made, the City shall disconnect such service from the City sewer utility until such time as the property owner has received a permit for the connection and paid the required connection fee.

100.04 BENEFITED SERVICE AREA NO. 3. The provisions of this section apply to Service Area No. 3, an area within the City limits of Cresco, Iowa, described as follows:

Lots 2, 3 and 4, Cresco Business Park Addition to the City of Cresco, Howard County, Iowa, and Lot 2, Cresco Industrial Park Addition to the City of Cresco, Howard County, Iowa.

The lots within Service Area No. 3 constitute a Benefited Service Area to be served by connecting to the City sewer utility. The original cost to the City of extending the City sewer utility to the properties in Service Area No. 3 is $12,012.59. The Benefited Service Area No. 3 contains approximately 400 linear feet.

1. Connection Fee. There is imposed on all lots within Service Area No. 3 for which a sewer connection fee has not previously been paid, a fee for connection to the City sewer utility. The connection fee shall be equal to that percentage of the original cost of bringing the City sewer utility to each respective service area that equals the percentage of area that the connected lot constitutes in relation to the entire service area. In Service Area No. 3 the connection fee shall be $15.01 per linear foot. Connection fees collected by the City shall be used only for the purpose of operating or paying debt of the City sewer utility. The sewer connection fee established by this section is in addition to, and not in lieu of, any other fees for connection required under the plumbing chapters, other provisions of this Code of Ordinances, or City policy.

2. Connection Permit. Before any connection is made to a City sewer utility to serve a lot in Service Area No. 3, the owner of the lot or lots to be served by the connection shall file an application with the Public Works Director, on a form provided by the City. Upon approval of the application, the Public Works Director shall advise the applicant of the connection fee to be paid. Upon payment of the connection fee to the City, or upon entry into an agreement to pay said fee in installments if so allowed under separate resolution of the City Council, the City shall connect the service.

Violation. In the event a connection is made to a City sewer utility serving Service Area No. 3 without the permit required by this section, or without payment of the connection fee set forth in this section, or if any installment payment of such fee as provided by subsequent resolution of the Council is not made, the City shall disconnect such service from the City sewer utility

until such time as the property owner has received a permit for the connection and paid the required connection fee.

CHAPTER 101

PROHIBITION ON DISCHARGE OF STORM WATER AND GROUNDWATER INTO CITY SANITARY SEWER SYSTEM

101.01 Purpose
101.02 Restrictions and Definitions
101.03 Method of Installation
101.04 Disconnections Ordered
101.05 Inspections
101.06 Time Limit to Allow Inspection
101.07 Time Limit for Disconnection
101.08 Sanitary Sewer Surcharge
101.09 Penalties and Enforcement

101.01 PURPOSE. The discharge of water from any roof, surface, ground, sump pump, footing tile or swimming pool or other natural precipitation into the City sanitary sewer collection system has the potential to cause damage to property and overload the City wastewater collection, conveyance and treatment system. Such discharge may result in the backup of sewage into living quarters of residential homes or other buildings, creating a potential health hazard and potentially exceeding the capacity of the City wastewater collection, conveyance and treatment system. Therefore, the City finds that it is essential to the maintenance of public health, minimization of damage to property and to maintain the functioning and capacity of the City wastewater collection, conveyance and treatment system, that the provisions of this section be strictly enforced:

101.02 RESTRICTIONS AND DEFINITIONS. No water from any roof, surface, ground, sump pump, footing tile, swimming pool or other natural precipitation shall be discharged into the sanitary sewer collection system. Dwellings, including new housing construction or houses under construction, and other buildings and structures which require, because of the infiltration of water into basements, crawl spaces and the like, a seepage collection system, or "beaver drain" or sump pump system to discharge water shall have a permanently installed discharge line which shall not at any time discharge water into the sanitary sewer collection system. A permanent installation shall be one which provides for a year-round discharge connection to the City subdrain/storm sewer system. If there is no subdrain available, the surface discharge point shall be located no closer than four feet from the curb or as approved by the City. Such discharge line shall consist of a rigid discharge line inside the structure, without valving or quick connections for altering the path of discharge and, if connected to the City subdrain/storm sewer system, shall include a check valve.

101.03 SUMP, PUMP, AND RIGID PIPE: METHOD OF INSTALLATION.

1. A discharge pipe shall be installed through the outside foundation wall of the building with rigid pipe (plastic, copper or galvanized) one and one-half (1½") inch inside diameter minimum, without valves or quick connections that would alter the path of discharge. The discharge shall be directed away from the foundation wall.

2. No discharge shall be directed so as to impact neighboring properties or any sidewalks, streets or right-of-way unless approved by the City.

3. Where a sump pit exists in any building, it shall have a pump installed with rigid piping as specified above.

4. Any plumber or contractor who knowingly installs a sump, pump and/or piping that is not in conformance with this ordinance shall be liable to the City for all damages that arise and be subject to the penalties set forth in Section 101.09.

101.04 DISCONNECTIONS ORDERED. Any owner of any dwelling, building or other structure having a roof, surface, ground, sump pump, footing tile or swimming pool now connected and/or discharging into the City sanitary sewer system shall disconnect and/or remove the same. Any disconnects or openings in the City sanitary sewer system shall be closed or repaired in a manner as approved by the Public Works Director or his or her representative.

101.05 INSPECTIONS. Every owner of any dwelling, building or other structure subject to this section, shall allow an employee of the City, or their designated representative, to gain admittance to the owner's property in order to inspect such dwelling, building or other structure, to confirm that there is no sump pump or other prohibited discharge from said property into the City sanitary sewer system. This requirement may also be met by having the property owner contract with a licensed plumber to perform the inspection. The plumber must inspect the property and the sump pump system, and shall complete, sign and return an inspection form, provided by the City, documenting the results of the inspection. All costs associated with an inspection by a privately retained plumber shall be the responsibility of the property owner.

101.06 TIME LIMIT TO ALLOW INSPECTION. The owner of any dwelling, building or other structure shall have a period of thirty (30) days from the date the City, or their designated representative, sends a written notice to the owner requesting admittance to the property for an inspection, to either allow a City inspection of the property, or to contract with a licensed plumber to perform the inspection, and notify the City of the results thereof as provided in section 101.05 of this chapter.

101.07 TIME LIMIT FOR DISCONNECTION OF DISCHARGE. Upon completion of a City inspection of a property, or upon the City's receipt of an inspection form from the licensed plumber hired by the owner of the property, the City shall determine whether any such property is improperly discharging storm water into the City sanitary sewer system, and shall send a notice to the property owner regarding the results of said inspection if there is a violation. If the property is found to be discharging storm water into the City sanitary sewer system, then the owner shall have a period of ninety (90) days from the date the City sends such written notice to the owner to disconnect the owner's sump pump or other prohibited discharge into the City sanitary sewer system, and to request an inspection, certifying that all work necessary to disconnect the owner's sump pump or other prohibited discharge from said property into the City sanitary sewer system has been completed.

101.08 SANITARY SEWER SURCHARGE. Any owner who fails to timely comply with the requirements of either section 101.06 or of section 101.07 of this chapter shall thereupon be subject to and shall pay a monthly surcharge on the property owner's or tenant's City sewer bill in the amount of $100.00 per month. Said surcharge shall commence on the first day of the month following the expiration of the thirty (30) day period set forth in section 101.06 of this chapter, or the ninety (90) day period set forth in section 101.07 of this chapter, as applicable, when either the property owner has failed to timely allow a City inspection or has failed to timely correct any illegal connections to the City sanitary sewer system, or has failed to contract with a licensed plumber to inspect the property and correct any illegal connections to the City sanitary sewer system. Such surcharge shall continue to be imposed on the

owner's City sanitary sewer bill for as long as the property owner continues to own the property without complying with the requirements of this division. This monthly surcharge is intended to offset the added cost to the City associated with having the City wastewater collection, conveyance and treatment system process clear or clean water unnecessarily, when the status of the property owner's connection or non-connection to the City sanitary sewer system cannot be ascertained, or when the owner has failed to timely disconnect any discharge of storm water to the City sanitary sewer system.

101.09 PENALTIES AND ENFORCEMENT. Whoever shall violate any provision of this chapter for which no specific penalty is provided may be punished as set forth below.

1. Any person found to be violating any provision of this chapter, shall be served by the City with written notice stating the nature of the violation and providing at least ninety (90) days for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations. A surcharge fee shall be added to the property's City sewer bill, as provided in section 101.08 of this code.

2. Any person who shall continue any violation beyond the time limit provided for in subsection (1) of this section shall be guilty of a municipal infraction. Each day in which any such violation occurs shall be deemed a separate offense.

3. Any person violating any of the provisions of this ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation. The City will also retain any and all civil remedies including but not limited to injunction or abatement actions to remedy a violation.

Any such accumulation remaining on any premises for a period of more than thirty (30) days shall be deemed a nuisance and the City may proceed to abate such nuisances in accordance with the provisions of Chapter 50 or by initiating proper action in district court.

(Code of Iowa, Ch. 657)

105.04 HEALTH AND FIRE HAZARD. It is unlawful for any person to permit to accumulate on any premises, improved or vacant, or on any public place, such quantities of solid waste that constitute a health, sanitation or fire hazard.

105.06 SEPARATION OF YARD WASTE REQUIRED. All yard waste shall be separated by the owner or occupant from all other solid waste accumulated on the premises and shall be composted on the premises, deposited at the City's yard waste disposal site, or placed in biodegradable paper bags and set out for collection not more than twelve (12) hours in advance of the regularly scheduled collection day. Tree limbs shall be cut into pieces not exceeding ten (10) feet in length. No other solid waste shall be commingled with leaves. It is illegal to accumulate landscape waste on any public street or alley or right-of-way. It is the responsibility of the abutting property owner to dispose of such waste properly. No leaves or grass clippings shall be placed on or raked onto City streets or alleys. The City crews collect yard waste from mid-April to mid-November; a schedule may be obtained at City Hall. As used in this section, "yard waste" means any debris such as grass clippings, leaves, garden waste, brush and trees. Yard waste does not include tree stumps.

105.07 LITTERING PROHIBITED. No person shall discard any litter onto or in any water or land, except that nothing in this section shall be construed to affect the authorized collection and discarding of such litter in or on areas or receptacles provided for such purpose. (Code of Iowa, Sec. 455B.363)

105.08 OPEN DUMPING PROHIBITED. No person shall dump or deposit or permit the dumping or depositing of any solid waste on the surface of the ground or into a body or stream of water at any place other than a sanitary disposal project approved by the Director of the State Department of Natural Resources, unless a special permit to dump or deposit solid waste on land owned or leased by such person has been obtained from the Director of the State Department of Natural Resources. However, this section does not prohibit the use of rubble at places other than a sanitary disposal project. "Rubble" means dirt, stone, brick, or similar inorganic materials used for beneficial fill, landscaping, excavation, or grading at places other than a sanitary disposal project. Rubble includes asphalt waste only as long as it is not used in contact with water or in a flood plain. For purposes of this section, rubble does not mean gypsum or gypsum wallboard, coal combustion residue, foundry sand, or industrial process wastes unless those wastes are approved by the State Department of Natural Resources.

(Code of Iowa, Sec. 455B.301, Sec. 455B.307 and IAC, 567-100.2)

105.09 TOXIC AND HAZARDOUS WASTE. No person shall deposit in a solid waste container or otherwise offer for collection any toxic or hazardous waste. Such materials shall be transported and disposed of as prescribed by the Director of the State Department of Natural Resources. As used in this section, "toxic and hazardous waste" means waste materials, including (but not limited to) poisons, pesticides, herbicides, acids, caustics,

pathological waste, flammable or explosive materials, and similar harmful waste that requires special handling and that must be disposed of in such a manner as to conserve the environment and protect the public health and safety.

(IAC, 567-100.2)
(IAC, 567-102.13[2] and 400-27.14[2])

1. Container Specifications. Waste storage containers shall comply with the following specifications:

   A. Residential. Residential waste containers shall be carts provided by hauler or designated collection bags. Disposable collection bags shall be securely fastened, and reusable carts shall be closed securely in order to be serviced.

   B. Commercial. Every person owning, managing, operating, leasing or renting any commercial premises where an excessive amount of refuse accumulates and where its storage in one or two carts as required above is impractical, shall maintain bulk storage containers approved by the City and provided by the collector.

2. Storage of Containers. Residential solid waste containers shall be stored upon the residential premises. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well-drained and fully accessible to collection equipment, public health personnel, and fire inspection personnel. All owners of residential and commercial premises shall be responsible for proper storage of all garbage and yard waste to prevent materials from being blown or scattered around neighboring yards and streets.

3. Location of Containers for Collection. Carts or collection bags for the storage of solid waste awaiting collection shall be placed at the curb or alley line by the owner or occupant of the premises served. Carts, collection bags or other solid waste placed at the curb line shall not be so placed more than twelve (12) hours in advance of the regularly scheduled collection day and shall be promptly removed from the curb line following collection.

3. Incinerators. Burn rubbish or garbage except in incinerators designed for high temperature operation, in which solid, semisolid, liquid, or gaseous combustible refuse is ignited and burned efficiently, and from which the solid residues contain little or no combustible material, as acceptable to the Environmental Protection Commission.

4. Scavenging. Take or collect any solid waste that has been placed out for collection on any premises, unless such person is an authorized solid waste collector.

5. Landscape Waste. Burn landscape waste within the City, except in an officially declared emergency condition.

105.12 SANITARY DISPOSAL PROJECT DESIGNATED. The sanitary landfill facilities operated by Winneshiek County are hereby designated as the official "Public Sanitary Disposal Project" for the disposal of solid waste produced or originating within the City.

105.13 YARD WASTE DISPOSAL SITE. A yard waste disposal site has been established by the City for use by residents of the community. The Council shall adopt by resolution the rules and regulations for the disposal site. Such rules will include the operating hours of the site, the type and size of degradable bags, the size of tree limbs and the type and size of organic debris to be deposited at the site. The Council shall also adopt by resolution the fees to be charged to the residents and nonresidents of the City for depositing yard waste at the disposal site.

105.14 RECYCLING PROGRAM. The City shall provide for the collection of recyclable material in accordance with the provisions of the contract between the City and the collector. All recycling shall be comingled and shall not be separated by the use of paper sacks or plastic bags or other means. All food containers must be cleaned. 110.01 FRANCHISE GRANTED. The City hereby grants a nonexclusive franchise to Aquila, Inc, d/b/a Aquila Networks, a Delaware corporation (hereinafter called "Grantee"), its lessees, successors and assigns. Grantee is hereby granted the right, privilege, franchise, permission, and authority to lay, construct, install, maintain, operate, and extend in, along, over or across the present and future streets, alleys, avenues, bridges, public rights-of-way and public places as are now within the present or future limits of the City, a natural gas distribution system and all facilities necessary for the purpose of supplying natural gas or processed gas for all purposes to the inhabitants of the City and consumers in the vicinity thereof, and for the distribution of natural gas from or through the City to points beyond the limits thereof. Such facilities shall include, but not be limited to, all mains, services, pipes, conduits and appliances necessary or convenient for transmitting, transporting, distributing, and supplying natural gas for all purposes for which it may be used, and to do all other things necessary and proper in providing natural gas service to the inhabitants of the City and in carrying on such business.

110.02 TERM; PERIODIC REVIEW. The rights and privileges granted by this chapter shall remain in effect for a period of twenty-five (25) years from the effective date of the ordinance codified in this chapter.† The City shall have the right to review and if, in its sole discretion, deems appropriate, terminate the franchise granted by this chapter The right to review and terminate the franchise may be exercised by City on the following dates: five (5) years from the date of enactment of the ordinance codified by this chapter; ten (10) years from the date of enactment of the ordinance codified by this chapter; fifteen (15) years from the date of enactment of the ordinance codified by this chapter; and twenty (20) years from the date of enactment of the ordinance codified by this chapter. In the event the City elects to terminate the franchise, the Clerk shall notify Grantee in writing at least 180 days before the effective date of termination.

110.03 GOVERNING RULES AND REGULATIONS.

1. The franchise is granted subject to all conditions, limitations, and immunities now provided for, or as hereafter amended, and applicable to the operations of a public utility, by State or Federal law. The rates to be charged by Grantee for service within the present or future corporate limits of the City and the rules and regulations regarding the character, quality, and standards of service to be furnished by Grantee shall be under the jurisdiction and control of such regulatory body or bodies as may, from time to time, be vested by law with authority and jurisdiction over the rates, regulations and quality and standards of service to be supplied by Grantee. Provided,

† **EDITOR'S NOTE:** Ordinance No. 389 adopting a natural gas franchise for the City was passed and adopted on June 20, 2005.

however, should any judicial, regulatory or legislative body, having proper jurisdiction, take any action that precludes Grantee from recovering from its customers any cost associated with services provided hereunder, then Grantee and the City shall renegotiate the terms of the franchise in accordance with the action taken, so as to allow Grantee to be made whole economically. In determining the rights and duties of the Grantee, the terms of the franchise shall take precedence over any conflicting terms or requirements contained in any other ordinance enacted by the City.

2. If an energy supplier is unable to furnish an adequate supply of energy due to an emergency, an order or decision of a public regulatory body, or other acts beyond the control of the Grantee, then the Grantee shall have the right and authority to adopt reasonable rules and regulations limiting, curtailing, or allocating extensions of service or supply of energy to any customers or prospective customers, and withholding the supply of energy to new customers, provided that such rules and regulations shall be uniform as applied to each class of customers or prospective customers, and shall be nondiscriminatory as between communities receiving service from the Grantee.

110.04 FRANCHISE FEES. The City may, during the term of the franchise, in its discretion after public hearing, but not more than once a year, and upon an affirmative vote of a majority of the members of the City Council, impose a franchise fee on customers located within the corporate limits of the City in an ordinance form satisfactory and acceptable to Grantee. The form of assessment and collection of the franchise fee approved by the City must be based on one of the following methods: (i) percentage of gross receipts of regulated sales or transportation revenues collected within the City; (ii) volumetric fee based on the delivery of energy within the corporate City limits; or (iii) flat fee collected from customers on a nondiscriminatory basis who are located within the City; provided however, no franchise fee shall be effective against Grantee unless and until the City imposes a fee or tax of the same percentage or other method on the gross revenues, delivery or customers of all other energy suppliers. The City may request that Grantee propose ordinance language that will apply the permitted franchise fee.

110.05 CONSTRUCTION AND MAINTENANCE OF COMPANY FACILITIES.

1. Any pavements, sidewalks, or curbing taken up and any and all excavations made shall be done in such a manner as to cause only such inconvenience to the inhabitants of the City and to the general public as is reasonably necessary; and repairs and replacements shall be made promptly by Grantee, leaving such properties in as good as condition as existed immediately prior to excavation.

2. Grantee agrees that for the term of the grant, it will maintain facilities and equipment sufficient to meet the current and future energy requirements of City, its inhabitants and industries. While maintaining its facilities and equipment, Grantee shall obtain permits as required by ordinance, except that in emergency situations, Grantee shall take immediate unilateral actions as the Grantee determines are necessary to protect the public health, safety, and welfare; in which case, Grantee shall notify the City as soon as reasonably possible.

3. The City will give Grantee reasonable notice of plans for street improvements where paving or resurfacing of a permanent nature is involved that affect Grantee's facilities. The notice shall contain the nature and character of the improvements, the rights-of-way upon which the improvements are to be made, the extent of the

improvements, and the time when the City will start the work, and, if more than one right-of-way is involved, the order in which this work is to proceed. The notice shall be given to the Grantee a sufficient length of time, considering seasonable working conditions, in advance of the actual commencement of the work to permit the Grantee to make any additions, alterations, or repairs to its facilities.

110.06 EXTENSION OF COMPANY FACILITIES. Upon receipt and acceptance of a valid application for service, Grantee shall, subject to its own economic feasibility criteria, make reasonable extensions of its distribution facilities to serve customers located within the current or future corporate limits of the City.

110.07 RELOCATION OF COMPANY FACILITIES. If the City elects to change the grade of or otherwise alter any street, alley, avenue, bridge, public right-of-way, or public place for a public purpose, Grantee, upon reasonable notice from the City, shall remove and relocate its facilities or equipment situated in the public rights-of-way, if such removal is necessary to prevent interference and not merely for the convenience of the City, at the cost and expense of Grantee. If the City orders or requests Grantee to relocate its facilities or equipment for the primary benefit of a commercial or private project, or as a result of the initial request of a commercial or private developer or other non-public entity, and such removal is necessary to prevent interference and not merely for the convenience of the City or other right-of-way user, Grantee shall receive payment for the cost of such relocation as a precondition to relocating its facilities or equipment. The City shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause Grantee unreasonable additional expense in exercising its authority under this section. The City shall also provide a reasonable alternative location for Grantee’s facilities. The City shall give Grantee written notice of vacating of a public right-of-way. Vacating of a public right-of-way shall not deprive the Grantee of its right to operate and maintain existing facilities, until the reasonable cost of relocating the same are first paid to the Grantee. Any person or corporation desiring to move a building or other structure along (or to make any unusual use of) any street, alley, avenue, bridge, public right-of-way or public place, which shall interfere with the facilities or equipment of the Grantee, shall first give notice to the City and the Grantee and pay a sum sufficient to cover the expense and damage incident to the moving of Grantee’s facilities and equipment.

110.08 CONFIDENTIAL INFORMATION. The City acknowledges that certain information it might request pursuant to the franchise may be of a proprietary and confidential nature. If Grantee requests that any information provided by Grantee to the City be kept confidential due to such proprietary or commercial value, the City and its employees, agents, and representatives shall maintain the confidentiality of that information, to the extent allowed by law. If the City is requested or required by legal or administrative process to disclose any such confidential information, the City shall promptly notify Grantee of such request or requirement so that Grantee may seek an appropriate protective order or other relief. The City shall use all reasonable efforts to ensure that the confidentiality of Grantee’s confidential information is maintained.

110.09 FORCE MAJEURE. It shall not be a breach or default under the franchise if either party fails to perform its obligations due to Force Majeure. Force Majeure includes, but is not limited to, the following: (i) physical events such as acts of God, landslides, lightning, earthquakes, fires, freezing, storms, floods, washouts, explosions, breakage or accident or necessity of repairs to machinery, equipment or distribution or transmission lines; (ii) acts of others such as strikes, work-force stoppages, riots, sabotage, insurrections or wars; (iii)

governmental actions such as the necessity for compliance with any court order, law, statute, ordinance, executive order, or regulation promulgated by a governmental authority having jurisdiction; and any other causes, whether of the kind herein enumerated or otherwise not reasonably within the control of the affected party to prevent or overcome. Each party shall make reasonable efforts to avoid Force Majeure and to resolve such event as promptly as reasonably possible once it occurs in order to resume performance; provided, however, this provision shall not obligate a party to settle any labor strike.

110.10 HOLD HARMLESS. Grantee, during the term of the franchise, agrees to save harmless the City from and against all claims, demands, losses and expenses arising directly out of the negligence of Grantee, its employees or agents, in the constructing, operating, and maintaining of distribution and transmission facilities or appliances of Grantee; provided, however, Grantee need not save harmless the City from claims, demands, losses and expenses arising out of the negligence of the City, its employees, or agents.

110.11 NON WAIVER. Any waiver of any obligation or default under the franchise shall not be construed as a waiver of any future defaults, whether of like or different character.

110.12 REPEAL CONFLICTING ORDINANCES. The franchise ordinance, when accepted by Grantee, shall constitute the entire agreement between the City and the Grantee relating to the franchise, and the same shall supersede all prior ordinances pertaining to the franchise agreement, and any terms and conditions of such prior ordinances or parts of ordinances in conflict herewith are hereby repealed. Ordinance No. 177 of the City is hereby repealed as of the effective date hereof.

111.01 FRANCHISE GRANTED. There is hereby granted to Interstate Power and Light Company, hereinafter referred to as the Company, its successors and assigns, the right and franchise to acquire, construct, erect, maintain and operate in the City works and plants for the manufacture and generation of electricity and a distribution system for electric light, heat, and power, and the right to erect and maintain the necessary poles, lines, wires, conduits, and other appliances for the distribution of electric current along, under, and upon the streets, avenues, alleys, and public places in the City, and also the right to erect and maintain upon the streets, avenues, alleys, and public places electric lines through the City, to supply individuals, corporations, communities and municipalities both inside and outside of the City with electric light, heat and power for a period of twenty-five (25) years,[†] subject to a limited right of cancellation at the end of the fifteenth (15th) year anniversary of the Anniversary Date as defined herein; also, the franchise includes any right of eminent domain which may be provided in Section 364.2 of the *Code of Iowa*.

111.02 RIGHT-OF-WAY GRANTED. The poles, wires, and appliances shall be placed and maintained so as not to interfere unnecessarily with the travel on said streets, avenues, alleys and public places in said City, or to interfere unnecessarily with the proper use of the same, including ordinary drainage, or with the sewers, underground pipe and other property of the City, and the Company, its successors and assigns, shall hold the City free and harmless from all damages arising from any negligent acts or omissions of the Company or the Company's agents in the erection or maintenance of said system.

111.03 EXCAVATIONS AND CONSTRUCTION. In making any excavations in any streets, avenues, alleys or public place, the Company, its successors and assigns, shall protect the site while work is in progress by placing guards, barriers, or signals, and shall not unnecessarily obstruct the use of the streets, and shall backfill all openings in such manner as to prevent settling or depressions in the surface, pavement or sidewalk of such excavations with same materials, restoring the condition as nearly as practical and if any defects are caused shall repair the same. If Company removes any concrete, asphalt, or other hard surface, Company shall replace same immediately. Any and all backfilling, repair, replacement or surfacing, whether hard surface or not, shall be done in a good, workmanlike and reasonable manner. The Company shall, at its own cost and expense, locate and relocate its existing facilities or equipment in, on, over, or under any public street, avenue, alley or other public place in the City in such manner as the City may at any time reasonably require for the purposes of facilitating the construction, reconstruction, maintenance or repair of the street, avenue, alley or public place or any public improvement thereon or to reasonably promote the

efficient operation of such improvement or for any other reasonable cause. The City shall consider reasonable alternatives in designing its public works projects so as not to cause the Company unreasonable additional expense in exercising its authority under this section and shall not arbitrarily require Company to relocate its services. The City shall provide a reasonable alternative location for the Company's facilities, unless Company agrees that a reasonable alternative location is not available. The City shall give the Company reasonable advance written notice in the event the City vacates a public right-of-way. If the City orders the Company to relocate its existing facilities or equipment for the primary benefit of a commercial or private (non-public) project, Company shall receive payment for the cost of such relocation prior to such relocation. The vacation of a public right of way shall not deprive Company of its right to operate and maintain existing facilities, unless and until the reasonable cost of relocating its existing facilities or equipment is paid to Company.

111.04 METERS. The Company, its successors and assigns, shall furnish and install all meters at its own expense and shall provide the service wire to buildings as set forth in the Company's tariff filed with the Iowa Utilities Board.

111.05 SYSTEM. The system authorized by this chapter shall be modern and up-to-date and shall be of sufficient capacity to supply all reasonable demands of the City and its inhabitants and shall be kept in a modem and up-to-date condition.

111.06 FRANCHISE NOT EXCLUSIVE. The franchise granted by this chapter shall not be exclusive.

111.07 SERVICES. Service to be rendered by the Company under the franchise shall be continuous unless prevented by fire, acts of God, unavoidable accidents or casualties, or reasonable interruptions necessary to properly service the Company's equipment, and in such event service shall be resumed as quickly as reasonably possible.

111.08 FRANCHISE FEE.

1. In its monthly billing the Company shall include a franchise fee of 0% on the gross receipts from the sale of electricity for customers within the City limits. The Company shall commence collecting the 0% franchise fee on the date of January 1 or July 1, following six months from the date of the acceptance by the Company of the ordinance codified in this chapter and the filing of that acceptance with the City Clerk. The franchise fee may increase up to a maximum of 5% on or after January 1, 2010. The City shall give the Company a minimum six-month notice prior to the implementation of an increase in the franchise fee. The City shall be solely responsible for the proper use of any amounts collected as franchise fees and shall only use such franchise fees for a purpose as allowed by applicable law. Collection of the franchise fee shall cease at the earlier of the City's repeal of the franchise fee or the end of the franchise term.

2. The franchise fee shall be applied to all customers' bills in accordance with *Code of Iowa* Chapter 364.2(f) and 423B.5. The Company shall not grant exemptions or refunds of the franchise fee beyond that granted by the *Code of Iowa*. If at any time the Iowa Utilities Board or another authority having proper jurisdiction prohibits the collection or payment of a franchise fee, the Company shall be relieved of its obligation to collect and pay the franchise fees to the City.

3. The franchise fee shall be in lieu of any other payments to the City for the Company's use of streets, avenues, alleys and public places in the City and other

administrative or regulatory costs with regard to said franchise; and said poles, lines, wires, conduits and other appliances for the distribution of electric current along, under and upon any streets, avenues, alleys or public places in the City to supply individuals, corporations, communities, and municipalities both inside and outside of said City with electric light, heat and power shall be exempt from any special assessment, tax levied by the City, license or rental charge during the term of the franchise. Upon receipt of a final and unappealable order or approval authorizing any voluntary or involuntary annexation or any changes in the City limits, the City Clerk shall provide written notification to an officer or designated representative of the Company of such annexation or change of the City limits, and the Company shall apply the franchise fee to its customers who are affected by the annexation or change in the City limits, commencing six months from the receipt of the written notice.

4. Any additional charges for the franchise fee or any related fees shall be shown separately on the utility bill to each customer. The Company shall collect franchise fees and shall remit them to the City on a quarterly basis within thirty (30) days after the last day of the last revenue month of the quarter.

5. A franchise fee shall not be assessed to the City as a customer.

6. The City agrees to bear any costs, including attorney fees, and to defend, indemnify and hold Company harmless from any and all liability, claims, or causes of action associated with disputes related to the billing and/or collection of the franchise fee, provided that the City shall not be obligated to bear such costs or to defend, indemnify and hold Company harmless if such disputes arise from claims of inaccurate billing by Company due to Company's wrongful intentional or negligent acts.

111.09 HOLD HARMLESS. The Company, during the term of the franchise, agrees to save and hold harmless the City from and against all claims, demands, losses and expenses arising directly out of the negligence of the Company, its employees or agents, in the construction, operation and maintenance of any facilities or appurtenances of the Company or reasonable use thereof.

111.10 FEES TO BE PAID BY COMPANY. Any expenses associated with the publication of the franchise ordinance shall be paid by the Company.

111.11 REPEAL CONFLICTING ORDINANCES. The franchise ordinance, when accepted by the Company, shall constitute the entire agreement between the City and the Company relating to this franchise and the same shall supersede all prior ordinances pertaining to the franchise agreement, and any terms and conditions of such prior ordinances or parts thereof in conflict with this chapter are hereby repealed. In no event shall the obligations of the Company or the fees associated with the franchise be modified or altered unless otherwise approved and accepted by the Company.

111.12 TERM OF AGREEMENT. The term of the franchise and the rights granted thereunder shall continue for the period of twenty-five (25) years from and after its acceptance by the Company, as herein provided. The City may cancel this franchise on the fifteenth (15th) year anniversary of the Anniversary Date of the franchise by notifying Company in writing of its desire to do so, said notification to be given within thirty (30) days of said 15th year anniversary. If Company is not notified of the cancellation by the 15th year anniversary, then the franchise shall continue without cancellation until the 25th year. The Anniversary Date

shall be the date the franchise is filed with the City Clerk or is otherwise effective by operation of law.

There is hereby granted to ITC MIDWEST LLC, a wholly owned subsidiary of ITC HOLDINGS CORP., its successors and assigns (the "Company") the right and franchise to acquire, construct, erect, maintain and operate in the City a transmission system for electric power and the right to erect and maintain the necessary poles, lines, wires, conduits and other appliances or equipment and substations for the transmission of electric current (collectively, the "facilities") along, under and upon the streets, avenues, alleys and public places in the City, and also the right to erect and maintain upon the streets, avenues, alleys and public places, transmission lines through the City for a period of twenty-five (25) years.[†] The franchise also includes the right of eminent domain as provided in Section 364.2 of the *Code of Iowa*.

If the City orders or requests the Company to relocate its facilities for the primary benefit of a commercial or private project, or as the result of the initial request of a commercial or private developer or other non-public entity, and such relocation is necessary to prevent interference and not merely for the convenience of the City or other non-public entity, the Company shall receive payment for the cost of such relocation as a precondition to relocating its facilities. The City shall consider reasonable alternatives in designing its public works projects so as not arbitrarily to cause the Company unreasonable additional expense in exercising its authority under this section. The City shall also provide a reasonable alternate location for the Company's facilities. The City shall give the Company reasonable advance written notice to vacate a public right-of-way. Vacating a public right-of-way shall not deprive the Company of its right to operate and maintain existing facilities until the reasonable cost of relocating the same are paid to the Company.

The pruning shall be completed in accordance with the then-current nationally accepted safety and utility industry standards, as revised and updated from time to time.

112.06 CONTINUOUS SERVICE. Service to be rendered by the Company under the franchise shall be continuous unless prevented from doing so by fire, acts of God, unavoidable accidents or casualties, or reasonable interruptions necessary to properly service the Company's equipment, and in such event service shall be resumed as quickly as is reasonably possible.

CHAPTER 113

REGULATION OF CABLE TELEVISION RATES

113.01 Administration of Rules and Regulations
113.02 Rate Regulation Proceedings
113.03 Certification to FCC and Cable Operator
113.04 Cable Programming Service Tier
113.05 Delegation of Powers Permitted

113.01 ADMINISTRATION OF RULES AND REGULATIONS. The City has the legal authority to administer and shall enforce against any non-municipally owned cable television system operator, as permitted therein, the provisions of Part 76, Subpart N of the Rules and Regulations of the Federal Communications Commission, concerning Cable Rate Regulation, 47 C.F.R. §§76.900 et seq., as they currently read and hereafter may be amended, which are herewith incorporated by reference.

113.02 RATE REGULATION PROCEEDINGS. Any rate regulation proceedings conducted under Section 113.01 shall provide a reasonable opportunity for consideration of the view of any interested party, including (but not limited to) the City or its designee, the Cable Operator, subscribers, and residents of the franchise area. In addition to all other provisions required by the laws of the State of Iowa and the City for such proceedings, and in order to provide for such opportunity for consideration of the views of any interested party, the City shall take the following actions:

1. The City shall publish notice as provided in *Code of Iowa* Chapter 362.4, and shall mail, by certified mail, to the Cable Operator a notice of the intent to conduct a public proceeding on basic service tier rates and/or charges for equipment to receive such basic service tier, as defined by the FCC.

2. Said notice shall state, among other things, that cable television rates are subject to municipal review and explain the nature of the rate review in question; that any interested party has a right to participate in the proceeding; that public views may be submitted in the proceeding, explaining how they are to be submitted and the deadline for submitting any such views; that a decision concerning the reasonableness of the cable television rates in question will be governed by the FCC Rules and Regulations; and that the decision of the City is subject to review by the FCC.

3. The City shall conduct a public proceeding to determine whether or not the rates or proposed rate increase are reasonable. The City may delegate the responsibility to conduct the proceeding to any duly qualified and eligible individual or entity. If the City or its designee cannot determine the reasonableness of a proposed rate increase within the time period permitted by the FCC Rules and Regulations, it may announce the effective date of the proposed rates for an additional period of time as permitted by the FCC Rules and Regulations, and issue any other necessary or appropriate order and give notice accordingly.

4. In the course of the rate regulation proceeding, the City may require additional information from the Cable Operator that is reasonably necessary to determine the reasonableness of the basic service tier rates and equipment charges. Any such additional information submitted to the City shall be verified by an appropriate official of the cable television system supervising the preparation of the response on behalf of the entity, and submitted by way of affidavit or under penalty of

perjury, stating that the response is true and accurate to the best of that person's knowledge, information and belief formed after reasonable inquiry. The City may request proprietary information, provided that the City shall consider a timely request from the Cable Operator that said proprietary information shall not be made available for public information, consistent with the procedures set forth in Section 0.459 of the FCC Rules and Regulations. Furthermore, said proprietary information may be used only for the purpose of determining the reasonableness of the rates and charges or the appropriate rate level based on a cost-of-service showing submitted by the Cable Operator. The City may exercise all powers under the laws of evidence applicable to administrative proceedings under the laws of the State of Iowa and of the City to discover any information relevant to the rate regulation proceeding, including (but not limited to) subpoena, interrogatories, production of documents, and deposition.

5. Upon termination of the rate regulation proceeding, the City shall adopt and release a written decision as to whether or not the rates or proposed rate increase are reasonable or unreasonable, and, if unreasonable, its remedy, including prospective rate reduction, rate prescription, and refunds.

6. The City may not impose any fines, penalties, forfeitures or other sanctions, other than permitted by the FCC Rules and Regulations, for charging an unreasonable rate or proposing an unreasonable rate increase.

7. Consistent with FCC Rules and Regulations, the City's decision may be reviewed only by the FCC.

8. The City shall be authorized, at any time, whether or not in the course of a rate regulation proceeding, to gather information as necessary to exercise its jurisdiction as authorized by the Communications Act of 1934, as amended, and the FCC Rules and Regulations. Any information submitted to the City shall be verified by an appropriate official of the cable television system supervising the preparation of the response on behalf of the entity, and submitted by way of Affidavit or under penalty of perjury, stating that the response is true and accurate to the best of that person's knowledge, information and belief formed after reasonable inquiry.

113.03 CERTIFICATION TO FCC AND CABLE OPERATOR. The City shall file with the FCC the required certification form (FCC Form 328) on September 1, 1993, or as soon thereafter as appropriate. Thirty days later, or as soon thereafter as appropriate, the City shall notify the Cable Operator that the City has been certified by the FCC and that it has adopted all necessary regulations so as to begin regulating basic service tier cable television rates and equipment charges.

113.04 CABLE PROGRAMMING SERVICE TIER. With regard to the cable programming service tier, as defined by the Communications Act of 1934, as amended, and the FCC Rules and Regulations, and over which the City is not empowered to exercise rate regulation, the Cable Operator shall give notice to the City of any change in rates for the cable programming service tier or tiers, any change in the charge for equipment required to receive the tier or tiers, and any changes in the nature of the services provided, including the program services included in the tier or tiers. Said notice shall be provided within five (5) business days after the change becomes effective.

113.05 DELEGATION OF POWERS PERMITTED. The City may delegate its powers to enforce this chapter to municipal employees or officers ("cable official"). The cable official will have the authority to:

1. Administer oaths and affirmations;

2. Issue subpoenas;

3. Examine witnesses;

4. Rule upon questions of evidence;

5. Take or cause depositions to be taken;

6. Conduct proceedings in accordance with this chapter;

7. Exclude from the proceeding any person engaging in contemptuous conduct or otherwise disrupting the proceedings;

114.04 NONCOMPLIANCE. If after notice and opportunity for hearing, the City determines that the Cable Operator is not in complete compliance with all the provisions of the customer service standards, the Cable Operator shall reduce the rate for the basic tier of cable service by [10%, 20%, or 25%] until such time that the City has been satisfied that the Cable Operator is in compliance of all the provisions of the customer service standards. In addition, the Cable Operator shall pay to the City the sum of $100.00 for each day that the Cable Operator fails to be in compliance of all the provisions of the customer service standards after the date that the Council has passed a resolution stipulating the sections where the Cable Operator is in noncompliance.

115.04 VIOLATIONS AGAINST FRANCHISE.

1. It is unlawful for any person without the express consent of the franchisee to make any connection, extension, or division, whether physically, acoustically, inductively, electronically, or otherwise, with or to any segment of a franchised BTN for any purpose whatsoever, except as provided for herein.

2. It is unlawful for any person to willfully interfere, tamper, remove, obstruct, or damage any part, segment, or content of a franchised BTN for any purpose whatsoever.

115.05 FRANCHISE REQUIRED. No person shall construct, install, maintain, or operate on or within any street, any equipment or facilities for the distribution of television signals or radio signals or data, either analog or digital, over a BTN to any subscriber unless a franchise authorizing the use of the streets has first been obtained pursuant to the provision of this chapter and thereafter only while said person is legally operating under the terms and provisions of said franchise.

115.06 ELECTION AND COSTS. In order for a nonexclusive franchise to be granted pursuant to this chapter, election must be held and a majority of those voting must vote in favor of the granting of such franchise. The entire cost of the election together with all printing and publishing costs relating thereto shall be prepaid by the applicant selected by the Council to be franchisee, regardless of whether or not the applicant is granted a franchise by said election. When the actual costs of the election are known, the final payment may be adjusted accordingly. This section shall only apply when an election is otherwise required to be held by State and/or Federal law.

115.07 RENEWAL. The City shall have no obligation to renew any franchise granted hereunder except as may be required by Federal or State law. The failure to reissue such a franchise, however, shall not prohibit the franchisee from applying for a new franchise in competition with other applicants for a franchise in the event the City decides to consider proposals from new applicants for the franchise.

115.08 FRANCHISE FEE PAYMENT.

1. The franchisee shall pay to the franchising authority a franchise fee equal to five percent (5%) of gross revenues (as both are defined in Section 115.02 of this chapter) received by the franchisee from the operation of the cable system on a quarterly basis. Such payment shall be in addition to any other payment, charges, or fees owed to the City by the franchisee and shall not be construed as payment in lieu of personal or real property taxes levied by State, County or local authorities. For the purpose of this section, the 12-month period applicable under the franchise for the computation of the franchise fee shall be a calendar year, unless otherwise agreed to in writing by the franchising authority and the franchisee. The franchise fee payment shall be due and payable sixty (60) days after the close of the preceding quarterly period. Each payment shall be accompanied by a detailed report from a representative of the franchisee itemizing the basis for the computation.

2. The annual franchise fee payment percentage designated in this section may be amended no more than once every calendar year upon mutual agreement between the City and the franchisee. Any such amendment shall be consistent with the applicable rules of the FCC and other regulatory agencies. No amendment of the franchise fee payment percentage shall be effective sooner than six (6) months from the date of notice to the franchisee of the amended percentage amount.

3. In the event that any franchise payment or recomputed amount is not made on or before the dates specified herein, the franchisee shall pay as additional consideration:

    A. An interest charge computed from such due date, at the annual rate of nine percent (9%); plus

    B. A sum of money equal to two percent (2%) of the amount due in order to defray those additional expenses and costs incurred by the City by reason of the delinquent payment; provided, however, this paragraph shall not

apply if the underpayment equals less than five percent (5%) of the total amount due.

4. The period of limitation for recovery of any franchise fee payable hereunder shall be ten (10) years from the date on which payment by the franchisee is due. Unless within 10 years from and after such payment due date the franchising authority initiates a lawsuit for recovery of such franchise fees in a court of competent jurisdiction, such recovery shall be barred and the franchising authority shall be stopped from asserting any claims whatsoever against the franchisee relating to any such alleged deficiencies.

5. No acceptance of any payment by the City shall be construed as a release or as an accord and satisfaction of any claim the City may have for further or additional sums payable as a franchise fee under this chapter or for the performance of any other obligation of the franchisee. In the event of a dispute, the City, if it so requests, shall be furnished a statement of said payment, by a certified public accountant, reflecting the total amounts of annual gross revenues for the period(s) covered by the payment.

115.09 NATURE OF NONEXCLUSIVE FRANCHISE. Any franchise granted hereunder shall not be exclusive and the City reserves the right to grant a similar franchise to any other person at any time.

115.10 FRANCHISE ORDINANCE. In addition to those matters required to be included by virtue of this chapter, the franchise ordinance shall contain such further conditions or provisions as may be included in the franchisee's proposal negotiated between the City and the franchisee.

115.11 ACCEPTANCE AND EFFECTIVE DATE.

1. No franchise agreement or renewal passed by the City Council and, when required by law, approved by a vote of the qualified electors, shall become effective for any purpose unless and until written acceptance thereof shall have been filed with the City Clerk, duly executed by the proper officers of the franchise.

2. The written acceptance shall be filed by the franchisee not later than 12:01 p.m. of the sixtieth day following passage by the City Council or, when required by law, the franchise election granting such franchise, whichever is later. In default of the filing of such written acceptance as herein required, the franchisee shall be deemed to have rejected and repudiated the franchise. Thereafter, the acceptance of the franchisee shall not be received by the City Clerk. The franchisee shall have no rights, remedies, or redress unless and until the Council, by resolution, shall determine that such acceptance be received, which determination shall not be unreasonably withheld, and then upon such terms and conditions as the Council and the franchisee may agree.

3. In addition to the written acceptance and within the same 60-day period, the franchisee shall:

A. File a certificate of insurance as provided herein; and

B. File a performance bond as provided herein unless such bond requirement has been waived by the Council; and

C. Advise the City in writing of the franchisee's address for mail and official notifications from the City; and

D. Provide information necessary to establish that the franchise election and adjusted costs have been paid, when required; and

E. Unless otherwise prohibited by law, such as in the case of a franchise renewal, reimburse the City for its franchising expense in an amount as determined by the City. Said amount, however, shall be reasonable and based on direct costs incurred by the City.

115.12 REVIEWS.

1. On or about the third, sixth, ninth, and twelfth anniversaries of the effective date of the franchise grant or renewal, the City may schedule and hold a public meeting or meetings with the franchisee to review the performance by the franchisee under the franchise including future plans of operation and performance. In particular, the City may inquire whether the franchisee is supplying a level and variety of services equivalent to those being generally offered at that time in the industry to comparable market situations. The franchise shall make available to the City, if requested by the City, such records, documents and information that are relevant to such meeting and inquiry.

2. Any changes in this chapter or the franchise ordinance necessitated by modifications to the FCC regulations shall be incorporated into the franchise ordinance or this chapter within the time limit provided for in the rules and regulations of the FCC then in force and effect.

115.13 TRANSFER. The franchisee's right, title, or interest in the franchise shall not be sold, transferred, assigned, or otherwise encumbered, other than to an entity controlling, controlled by, or under common control with the franchisee as of the effective date of the franchise agreement, without the prior consent of the franchising authority, such consent not to be unreasonably withheld. No such consent shall be required, however, for a transfer in trust, by mortgage, by other hypothecation, or by assignment of any rights, title or interest of the franchisee in the franchise or cable system in order to secure indebtedness.

115.14 CONDITIONS OF SALE.

1. Except to the extent expressly required by Federal or State law, if a renewal or extension of the franchisee's franchise is denied or the franchise is lawfully terminated, and the franchising authority either lawfully acquires ownership of the cable system or by its actions lawfully effects a transfer of ownership of the cable system to another party, any such acquisition or transfer shall be at the price determined pursuant to the provisions set forth in Section 627 of the Cable Act.

2. The franchisee and the franchising authority agree that in the case of a final determination of a lawful revocation of the franchise, at the franchisee's request, which shall be made in its sole discretion, the franchisee shall be given a reasonable opportunity to effectuate a transfer of its cable system to a qualified third party. The franchising authority further agrees that during such a period of time, it shall authorize the franchisee to continue to operate pursuant to the terms of its prior franchise; however, in no event shall such authorization exceed a period of time greater than six (6) months from the effective date of such revocation unless the Council determines that an extension of greater than six (6) months is warranted. If, at the end of that time, the franchisee is unsuccessful in procuring a qualified transferee or assignee of its cable system which is reasonably acceptable to the franchising authority, the franchisee and the franchising authority may avail themselves of any rights they may

have pursuant to Federal or State law, it being further agreed that the franchisee's continued operation of its cable system during the six-month period shall not be deemed to be a waiver or an extinguishment of any rights of either the franchising authority or the franchisee.

1. Compliance with Safety Codes. All construction practices shall be in accordance with all applicable sections of the Occupational Safety and Health Act of 1970 and any amendments thereto as well as State and local codes where applicable.

6. Conditions of Street Occupancy. All transmission and distribution structures, poles, other lines and equipment installed or erected by the grantee pursuant to the terms hereof shall be located so as to cause a minimum of interference with the property use of public ways and with the rights and reasonable convenience of property owners who own property that adjoins any of such public ways.

7. Restoration of Public Ways. If during the course of the grantee's construction, operation, and maintenance of the cable system there occurs a disturbance of any public way by the grantee, it shall, at its expense, replace and restore such public way to a condition reasonably comparable to the condition of the public way existing immediately prior to such disturbance.

8. Relocation at Request of the Franchising Authority. Upon its receipt of ten (10) days' notice from the franchising authority, the grantee shall, at its own expense, protect, support, temporarily disconnect, relocate in the public way, or remove from the public way, any property of the grantee when lawfully required by the franchising authority by reason of traffic conditions, public safety, street abandonment, freeway and street construction, change or establishment of street grade, installation of sewers, drains, gas or water pipes, or any other type of structures or improvements by the franchising authority; provided, however, the franchising authority shall make every reasonable effort not to affect grantee's property pursuant to this section. The grantee

shall in all cases have the right to abandon below-ground facilities, provided written notice of such abandonment is provided within twenty (20) days to the City Engineer. If public funds are available to any persons using such street, easement, or right-of-way for the purpose of defraying the cost of any of the foregoing, the franchising authority shall make application for such funds on behalf of the grantee, upon written request by the grantee, which reasonably identifies the source of public funds believed to be available and the procedure for applying for such funds together with a statement of commitment to indemnify the franchising authority for all costs incurred in making such application, regardless of whether or not such grant or application is accepted.

9. Relocation at Request of Third Party. The Grantee shall, on the request of any person holding a building moving permit issued by the franchising authority, temporarily raise or lower its wires to permit the moving of such building, provided: (i) the expense of such temporary raising or lowering of wires is paid by said person, including, if required by the grantee, making such payment in advance; and (ii) the grantee is given not less than ten business days' advance written notice to arrange for such temporary wire changes.

10. Trimming of Trees and Shrubbery. The grantee shall have the authority to trim trees or other natural growth overhanging any of its cable system in the service area so as to prevent branches from coming in contact with the grantee's wires, cables or other equipment. The grantee shall reasonably compensate the franchising authority for any actual damages caused by such trimming or shall, upon mutual agreement with the franchising authority, and at its own cost and expense, replace all trees or shrubs to as near as reasonably possible, their prior condition, which are damaged as a result of any construction of the cable system undertaken by the grantee. Such replacement shall satisfy any and all obligations the grantee may have to the franchising authority pursuant to the terms of this section. For purposes of this section, "damage" shall be deemed to exist if a tree or shrub is killed or will not survive as a proximate cause of grantee's actions.

11. Aerial and Underground Construction. In those areas of the service area where all of the transmission or distribution facilities of the respective public utilities providing telephone communications and electric services are underground, the grantee likewise shall construct, operate and maintain all of its transmission and distribution facilities underground, provided that such facilities are actually capable of receiving the franchisee's cable and other equipment. In those areas of the service area where the transmission or distribution facilities of the respective public utilities providing telephone communications, and electric services are both aerial and underground, the Grantee shall have the sole discretion to construct, operate and maintain all of its transmission and distribution facilities, or any part thereof, aerial or underground, however, the Grantee is encouraged by the franchising authority to go underground unless economical and technological reasons would render such undergrounding impractical or unfeasible. Nothing contained in this section shall require the grantee to construct, operate, and maintain underground any ground-mounted appurtenances such as subscriber taps, line extenders, cable system passive devices (splitters, directional couplers), amplifiers, power supplies, pedestals or other related equipment.

12. Safety and Nuisance Requirements. The franchise shall at all times employ ordinary care and shall install and maintain in use commonly accepted methods and

3. Notification of Service Procedures. The franchisee shall furnish each subscriber at the time service is installed written instructions that clearly set forth procedures for placing a service call, or requesting an adjustment. Said instructions shall also include the name, address and telephone number of the City Clerk or other designated employee and a reminder that the subscriber can call or write the City Clerk or other designated employee for information regarding terms and conditions of the franchisee's franchise if the franchisee fails to respond to the subscriber's request for installation, service or adjustment within a reasonable period of time.

115.18 TESTING FOR COMPLIANCE.

1. The franchising authority may perform technical tests of the cable system during reasonable times and in a manner which does not unreasonably interfere with the normal business operations of the franchisee or the cable system in order to determine whether or not the franchisee is in compliance with the terms hereof and applicable State or Federal laws. Except in emergency circumstances, such tests may be undertaken only after giving the franchisee reasonable notice thereof, not to be less than fourteen (14) business days, and providing a representative of the franchisee an opportunity to be present during such tests. In the event that such testing demonstrates that the franchisee has substantially failed to comply with a material requirement hereof, the reasonable costs of such tests shall be borne by the franchisee. In the event that such testing demonstrates that the franchisee has substantially complied with such material provisions hereof, the cost of such testing shall be borne by the franchising authority. Except in emergency circumstances the franchising authority agrees that such testing shall be undertaken no more than once a year, and that the results thereof shall be made available to the franchisee.

115.20 INSPECTION OF PROPERTY AND RECORDS. At all reasonable times, franchisee shall permit examination by any duly authorized representative of the City Clerk or City Engineer of all franchise property; together with any appurtenant property of franchise situated within or without the City. Franchisee shall also permit any duly authorized representative of the City to examine and transcribe any strand maps and other records kept or maintained by franchisee reasonably related to the City's enforcement of the franchise.

The franchisee shall comply with rules promulgated by the FCC regarding the Emergency Broadcast System (EBS) in providing the capability for an emergency override audio alert whereby a designee of the City, in times of emergency, may introduce an audio message on all broadband telecommunications network channels simultaneously. The franchising authority shall hold the franchisee, its agents, employees, officers, and assigns hereunder, harmless from any claims arising out of the emergency use of its facilities by the franchising authority, including, but not limited to, reasonable attorneys' fees and costs.

115.23 INTERCONNECTION. Upon reasonable request by the franchising authority and to the extent required by law, the franchisee shall so construct, operate, and modify the network as to have the capability to interconnect the same into all BTNs adjacent to or entering the City, provided it is financially and technically feasible to do so. The City shall hold the franchisee harmless from any cost or liability of said interconnection in the event the franchisee is unable to charge subscribers reasonable rates to receive service provided from the interconnected network.

115.24 REQUIRED EXTENSIONS OF SERVICE.

1. Franchisee shall extend the cable system and cable service, as defined herein, to all parts of the City which have been platted and laid out into blocks divided by streets. In the instance of newly platted subdivisions and newly annexed additions to the corporate boundaries of the City, after the effective date of any franchise agreement, franchisee shall extend its cable system and provide service to such new subdivisions whenever franchisee shall receive a request for service from at least five (5) subscribers within 1,320 cable-bearing strand feet (1/4 cable mile) of its trunk or distribution cable. The franchisee shall make reasonable efforts to coordinate the extension of its facilities with the installation of public utilities and services in such new subdivisions and annexed areas in the same manner and at the same times as required with respect to other public utilities and service as provided by Chapter 170, Subdivision Regulations, of this Code of Ordinances.

2. The franchisee may extend cable service to subscribers where density is less than as set forth in subsection 1 above; however, franchisee shall not require a capital contribution greater than the actual cost plus labor of the franchisee in extending said service. The franchisee may require that payment of such a capital contribution be paid in advance.

Said budget shall not exceed 60 percent of the anticipated revenues to be received from the franchisee in payment of franchise fees to the City.

115.31 NEW DEVELOPMENTS. The City Council and franchisee may mutually agree to amend this chapter whenever necessary to enable the franchisee to take advantage of any developments in the field of transmission of communications signals which will afford it an opportunity to more effectively, efficiently or economically serve its customers; provided, however, this section shall not be construed to require the City and the franchisee to make any such amendment.

1. In carrying out the construction, maintenance and operation of the BTN, the franchisee shall not discriminate against any employee or applicant for employment because of race, creed, age, color, sex, national origin or handicap.

2. To the extent required by State and/or Federal law, the franchisee shall take affirmative action to ensure that applicants are employed, and that employees are treated during the employment, without regard to their race, creed, color, sex, age, handicap or national origin. 2. Fairness of Accessibility. The entire network of the franchisee shall be operated in a manner consistent with the principle of fairness and equal accessibility of its facilities, equipment, channels, studios and other services to all citizens, businesses, public agencies or other entities having a legitimate use for the network; and no one shall be arbitrarily excluded from its use; allocation of use of said facilities shall be made according to the rules or decisions of the franchisee and any regulatory agencies affecting the same.

lawsuit is based on the actions or omissions of the City but not on any act or omission by the franchisee. Franchising authority shall give the franchisee written notice of its obligation to indemnify the franchising authority within twenty (20) days of receipt of any claim or action described in this section. No such notice shall be required where the franchisee has actual notice of its obligation to indemnify the franchising authority, nor shall lack of notice within 20 days be a defense to any claim for indemnification by the franchising authority unless the franchisee can show actual prejudice occurred as a result of the failure of the franchising authority to provide notice within said 20-day period. Furthermore, if the franchising authority determines that it is necessary for it to employ separate counsel, the costs for such separate counsel shall be the responsibility of the franchising authority unless the need for separate counsel arises due to actual conflicts of interest between the franchising authority and the franchisee, in which event the franchisee shall remain responsible for all costs of franchising authority's defense.

2. The franchisee shall maintain and pay all premiums, etc., for a general comprehensive liability insurance policy, naming as additional insured the City, its officers, boards, commissions, agents and employees, in a company licensed to do business in Iowa with a Best rating of A- or above, protecting against liability for loss or damage for personal injury, death or property damage, occasioned by the operations of the franchisee under any franchise granted hereunder in the amount of:

B. $250,000.00 for property damage resulting from any one accident.

C. Worker's compensation insurance in such coverage as may be required by the worker's compensation insurance and safety laws of the State and amendments thereto.

3. The insurance policies referred to above shall contain an endorsement stating that the policies are extended to cover the liability assumed by the terms of this chapter and shall contain the following endorsements: "It is hereby understood and agreed that this policy may not be cancelled or the amount of coverage thereof reduced until thirty (30) days after receipt by the City by registered mail, of written notice of such intent to cancel or reduce the coverage."

115.36 PERFORMANCE BOND. The franchisee shall maintain, throughout the period of network construction, a faithful performance bond in favor of the City, with a surety approved by the City in the penal sum total of $100,000.00, conditioned upon the faithful performance by the franchisee of its obligations under this chapter and the franchise. When the network construction is substantially completed as defined herein, the penal sum total of the performance bond shall be reduced to $10,000.00 through the remainder of the term of the franchise, or any renewal or extension thereof and upon the further condition that in the event the franchisee shall fail to comply with any law, ordinance, or regulation governing the franchise, there shall be recoverable, jointly and severally from the principal and surety of the bond, any damages of loss suffered by the City as a result, including the full amount of any compensation, indemnification, or cost of removal or abandonment of any property of the franchisee, plus a reasonable allowance for attorney fees and costs, up to the full amount of the bond. The City, at its sole discretion, may at any time subsequent to completion of the construction, waive the requirement of the franchisee to maintain said bond. The bond shall

contain the following endorsement: "It is hereby understood and agreed that this bond may not be cancelled or the intention not to renew be stated until thirty (30) days after receipt by the City by registered mail a written notice of such intent to cancel or not to renew."

115.37 RECEIVERSHIP AND FORECLOSURE.

A. Such receivers or trustees shall have, within 120 days after their election or appointment, fully complied with all the terms and provisions of this chapter and the franchise granted pursuant hereto, and the receivers or trustees within said 120 days shall have remedied all defaults under the franchise.

B. Such receivers or trustees shall, within said 120 days execute an agreement duly approved by the court having jurisdiction in the premises, whereby such receivers or trustees assume and agree to be bound by every term, provision, and limitation of the franchise herein granted.

2. In the case of a foreclosure or other judicial sale of the plant, property, and equipment of the franchisee, or any part hereof, including or excluding the franchise, the City Council or its designee may serve notice of termination upon the franchisee and the successful bidder at such sale, in which event the franchise and all rights and privileges of the franchise hereunder shall cease and terminate thirty (30) days after service of such notice consistent with Federal law.

A. The City Council shall have approved the transfer of the franchise, as and in the manner in this chapter provided.

Express approval of the City Council shall be required where ownership or control of the right of control of, or interest in, the franchise is acquired by a person or group of persons acting in concert, none of whom already owns the right of control, as "control" is defined by Federal statute or FCC regulation. In the absence of such definition, "control" shall be deemed to mean 50 percent of the right of control or interest in the franchise.

115.40 RIGHTS RESERVED TO THE CITY.

1. Nothing herein shall be deemed or construed to impair or affect, in any way, to any extent, the right of the City to acquire the property of the franchisee consistent with State and Federal law.

2. There is hereby reserved to the City every right and power that is required to be herein reserved or provided by any law, and the franchisee, by its acceptance of the franchise, agrees to be bound thereby and to comply with any lawful action or requirements of the City, passed pursuant to the legitimate exercise of its police power.

3. Neither the granting of any franchise nor any provision hereof shall constitute a waiver or bar to the exercise of any governmental right or power of the City.

4. If the FCC or any other Federal or State body or agency shall now or hereafter exercise any paramount jurisdiction over the subject matter of any franchise granted under this chapter, to the extent such jurisdiction shall preempt or preclude the exercise of like jurisdiction by the City the jurisdiction of the City shall cease and no longer exist.

5. 1. Grounds for Revocation. The City reserves the right to revoke any franchise granted hereunder and rescind all rights and privileges associated with the franchise in the following circumstances, each of which shall represent a default and breach under this chapter and the franchise ordinance:

B. If the franchisee should fail to provide or maintain, in full force and effect, the liability and indemnification coverage or the performance bond as required herein.

If any court of competent jurisdiction, the FCC or any State regulatory body by rules, decision or other action determines that any material provision of the franchise documents, including this chapter, is invalid or unenforceable prior to the commencement of construction of the network by the franchisee.

D. If the franchisee fails to receive necessary FCC certification.

2. Procedure Prior to Sanction or Revocation.

A. The City may make written demand that the franchisee do or comply with any term or condition under this chapter or the franchise ordinance. Any such demand shall specify with particularity the alleged violation by grantee. Grantee shall have ten (10) days from its receipt of the aforementioned demand to notify City that it disagrees with the City's determination that a violation has occurred. Such notice shall toll the running the timeframe herein and this issue shall be placed on the agenda of the next regularly scheduled Council meeting, where grantee shall be given an opportunity to be heard before the Council. The Council shall issue written findings of fact in the event it determines a violation has occurred and shall serve such written determination on the grantee in order to restart the timeframe herein. If the failure, refusal, or neglect of the franchisee continues for a period of thirty (30) days pursuant to this section, the City shall cause to be served upon such franchisee, at least ten (10) days prior to the date of the next Council meeting, a written notice of such officer's intent to request such termination, and the time and place of the meeting, notice of which shall be published by the City Clerk at least one to ten days before such meeting in a newspaper of general circulation within the City.

C. If such failure, refusal, or neglect by the franchisee was with just cause, the Council shall direct the franchisee to comply within such time and manner and upon such terms and conditions as are reasonable.

D. If the Council shall determine such failure, refusal or neglect by the franchisee was without just cause, the Council may, by resolution, declare that the franchise of such franchisee shall be terminated and bond forfeited unless there be compliance by the franchisee within such periods as the Council may fix.

E. The franchisee may appeal any decision by the City Council hereunder, to a court of competent jurisdiction. The franchise shall remain in full force and effect until the issue of termination has been finally adjudicated.

3. Restoration of Property. In removing its plant, structures and equipment, the franchisee shall refill, at its own expense, any excavation that shall be made by it and shall leave all public ways and places in reasonably as good a condition as prevailing prior to the company's removal of its equipment and appliances, without affecting the electrical or telephone cable wires, or attachments. The City shall inspect and approve the conditions of the public ways and public places, and cables, wires, attachments and poles after removal. Upon either the expiration or revocation of a franchise, the City may require the franchisee to continue to operate the network for an extended period of time not to exceed six (6) months from the date of such expiration or revocation. The franchisee shall, as trustee for its successor in interest, continue to operate the BTN under the terms and conditions of this chapter and the franchise and to provide the regular subscriber service and any and all of the services that may be provided at that time. The City shall be permitted to seek legal and equitable relief to enforce the provisions of this subsection.

6. Lesser Sanctions. Nothing shall prohibit the City in enforcing its rules and regulations to impose lesser sanctions or censures for violations of provisions of this chapter or the franchise ordinance rather than revocation.

7. Liquidated Damages. By acceptance of the franchise, franchisee agrees that failure to comply with the provisions therein and this chapter will result in damage to the City, and that it will be impracticable to determine the actual amount of such damage; and franchisee therefore agrees that, in addition to any other damages suffered by the City, franchisee will pay to the City the following liquidated damages:

Whenever this chapter or the franchise sets forth any time for any act to be performed by or on behalf of the franchisee, such time shall be deemed of the essence and the franchisee's failure to perform within the time allotted shall, in all cases, be sufficient grounds for the City to invoke the remedies available under the terms and conditions of this chapter and the franchise.

115.44 IMPOSSIBILITY OF PERFORMANCE. The franchisee shall not be held in default or noncompliance with the provisions of the franchise, or suffer any enforcement or penalty relating thereto, where such noncompliance or alleged defaults are caused by strikes, acts of God, power outages, or other events reasonably beyond its ability to control.

115.45 ACTIONS OF PARTIES. In any action by the franchising authority or the franchisee that is mandated or permitted under the terms hereof, such party shall act in a reasonable, expeditious, and timely manner. B. The balance of the bond shall be released by the city clerk and returned to the applicant or employer upon request by the applicant or employer at any time more than four months after expiration of the peddlers license(s) for which the cash bond was provided, unless the City Clerk has received notice of a pending action in the state or federal courts seeking a judgement upon a claim eligible for payment from the bond. Except as otherwise provided by court order, the City Clerk shall not release any bond during the pendency of any such action.

The licensee, or the applicant, shall have a right to a hearing before the Council at its next regular meeting. The Council may reverse, modify, or affirm the decision of the Clerk by a majority vote of the Council members present and the Clerk shall carry out the decision of the Council.

122.15 EFFECT OF REVOCATION. Revocation of any license shall bar the licensee from being eligible for any license under this chapter for a period of one year from the date of the revocation.

STORAGE OF FLAMMABLE LIQUIDS

158.01 Purpose **158.02 Bulk Storage Prohibited**

158.01 PURPOSE. The purpose of this chapter is to establish rules and regulations governing the storage of flammable liquids, liquefied petroleum gas or other flammable or combustible liquids stored in aboveground tanks within the City in order to protect the public health, safety, and welfare.

158.02 BULK STORAGE PROHIBITED. Bulk storage of flammable or combustible liquids in aboveground tanks or other containers, in excess of twenty-five (25) gallons is prohibited, except as hereinafter provided:

1. Aboveground tanks may be permitted in the M-1 zoning district, the A-1 zoning district, the C-1 zoning district or the C-2 zoning district, provided that the Fire Chief authorizes and the Council approves such placement. However, any bulk storage in the C-1 or C-2 zoning districts shall be limited to storage of liquid propane gas only, with a maximum tank size of 500 gallons, and used for resale to the public only. Any person or entity desiring to store flammable or combustible liquids in the M-1, A-1, C-1 or C-2 zoning districts in excess of 25 gallons shall first apply for a permit through the Fire Chief on a form to be provided by the Clerk. The Fire Chief shall have sixty (60) days to review the application and determine if a permit should be granted. Council approval for such placement is also required. A permit shall be granted by the City only if the aboveground storage tank or other container complies with all applicable local, State or Federal requirements and does not constitute an unacceptable risk to the public health, safety, and welfare, as determined by the City in its sole discretion. In addition, and subject to the restrictions for C-1 and C-2 zoning districts set forth above, tanks may contain no more than 660 gallons of gasoline or 1,100 gallons of diesel fuel, the combination of any tanks, gasoline and diesel, shall not exceed 2,600 gallons on any one property; and no fuel may be used for sale except as set forth above.

2. Temporary aboveground storage tanks used for construction projects may be allowed in any zoning district of the City, but before placement must first receive a permit from the Fire Chief. To obtain a permit, the applicant shall file an application in writing on a form furnished by the City for that purpose. Each such application shall identify the size of the tank required, the material composition of the tank, the reason the tank is needed, the length of time it will remain at the site, a description of the location at which the tank will be placed, and a map showing the distances from the tank to buildings and lot lines.

159.05 Public Notification
159.06 Regulations
159.07 Minimum System Design Standards
159.08 Application Process
159.09 Collection of Costs

159.01 PURPOSE. The purpose of this chapter is to allow safe, effective, and efficient use of small wind energy conversion systems; to identify locations in areas of the City which may be least adversely impacted by the visual, aesthetic, and safety implications of their location.

159.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. "Blade" means an element of a wind turbine which acts as a part of an airfoil assembly, thereby extracting through rotation, kinetic energy directly from the wind.

2. "Commercial wind energy conversion system" means a wind energy conversion system which is intended to produce electricity for sale to a rated regulated or non-regulated utility or for use off site.

3. "Height, total system" means the height above grade of the wind energy system, including the tower generating unit, and the highest vertical extension of any blades or rotors. Height shall be measured from the adjacent grade of the tower to the tip of the turbine (blade) at its highest point.

4. "Shadow flicker" means alternating changes in light intensity caused by the moving blade of a wind power generator casting shadows on the ground and stationary objects such as the window of a dwelling.

5. "Small wind energy conversion system" means a wind turbine, a tower, and associated control or conversion electronics, which is intended to reduce on-site consumption of utility power, is incidental and subordinated to a permitted use on the same parcel and has a rated capacity of up to one hundred (100) kilowatts. No roof-mounted wind energy conversion system shall be allowed.

159.03 COMMERCIAL WIND ENERGY CONVERSION SYSTEM. It is unlawful to erect or maintain a commercial wind energy conversion system within the City of Cresco.

159.04 SPECIAL ACCESSORY USE.

1. Special Use. A small wind energy conversion system may be allowed only as an accessory use to a permitted principal use and shall require approval of a special use permit from the Board of Adjustment prior to construction, installation, alteration, or location of such structure.

2. Permit Required. It is unlawful to construct, erect, install, or alter or located any small wind energy conversion system within the City of Cresco, unless a special use permit has been obtained from the Board of Adjustment. The permit may be revoked at any time the approved system does not comply with the regulations, and

rules established herein and any additional conditions imposed by the Board. The owner of the system shall also obtain all other permits or licenses required by Federal, State, and local agencies prior to construction of the system.

159.05 PUBLIC NOTIFICATION. Following receipt of the application for special use permit, the Board of Adjustment shall meet. Notice will be sent to the surrounding property owners within 1,000 feet of the property having the site plan considered. Notice shall be sent not less than seven (7) days and not more than twenty (20) days prior to the meeting at which the application is first considered. The notice shall contain the date, time and location of the meeting.

159.06 REGULATIONS.

1. Minimum Lot Size. No small wind energy conversion system shall be constructed on a lot smaller than three (3) acres.

2. Minimum Setback Requirements. All small wind energy conversion systems shall have a setback of 110% of the total system height from any property line.

3. Maximum Height. The maximum tower height for a small wind energy conversion system shall be 60 feet.

4. Number of Systems Allowed. No more than one small wind energy conversion system shall be allowed on any parcel.

5. Location.

   A. A wind energy conversion system shall not be located in any required setback.

   B. A wind energy conversion system shall be located entirely in the rear of the property.

   C. No part of a wind energy conversion system shall be located within or over drainage, utility or other established easements, or on or over property lines.

   D. A wind energy conversion system shall be in compliance with the guidelines of the Federal Aviation Administration (FAA) regulations.

   E. No wind energy conversion system shall be constructed within 20 feet laterally of an overhead electrical power line (excluding secondary electrical service lines or service drops). The setback from underground electric distribution lines shall be at least five feet.

   F. All wind energy conversion systems shall be located a minimum of 1,000 feet from the nearest inhabited residential structure, school, hospital, or place of worship not on property owned or controlled by the owner/operator of the wind energy system. This setback can be reduced at the discretion of the Board of Adjustment based upon the shadow flicker model provided.

   G. All wind energy conversion systems shall be located a minimum of 1,000 feet from the nearest wind energy conversion system located on another parcel.

H. No roof-mounted small wind energy conversion system shall be allowed.

159.07 MINIMUM SYSTEM DESIGN STANDARDS. The following standards are required of all small wind energy conversion systems and shall be deemed to be conditions of approval for every wind energy system.

1. Color. The wind energy conversion system shall be white or light gray in color. Other neutral colors may be allowed at the discretion of the Board of Adjustment. The surface of the structure shall be non-reflective.

2. Lighting. No lights shall be installed on the tower, unless required by the Federal Aviation Administration (FAA).

3. Signs. One sign, limited to four (4) square feet, shall be posted at or near the base of the tower. The sign shall include a notice of no trespassing, a warning of high voltage, and the phone number of the property owner to call in case of emergency. Such sign shall be directly visible from any external fencing and/or landscaping. Brand names or advertising associated with any installation shall not be visible from any public right-of-way.

4. Clearance of Blade Above Ground. No portion of the wind energy conversion system shall extend within 20 feet of the ground. No blades may extend over parking areas, driveways or sidewalks.

5. Installation. Installation must be done by a qualified professional and according to manufacturer's recommendations.

6. Noise. A noise study must demonstrate that the wind energy conversion system shall not exceed 65 decibels (dBA) within 100 feet of the wind tower, except during short-term events such as severe wind storms or utility outages.

7. Use of Electricity Generated. A wind energy conversion system shall be used exclusively to supply electrical power for onsite consumption by the principal structure only. When a parcel on which a wind energy conversion system is installed also receives electrical power supplied by a utility company, excess electrical power generated by the wind energy conversion system and not presently needed for on-site use may be used by the utility company in accordance with Section 199, Chapter 15.11(5) of the Iowa Administrative Code.

8. Automatic Over Speed Controls. All wind energy conversion systems shall be equipped with manual and automatic over speed controls to limit the blade rotation speed to within the design limits of the wind energy conversion system.

9. Electromagnetic Interference. All blades shall be constructed of a nonmetallic substance. No wind energy conversion system shall be installed in any location where its proximity with existing fixed broadcast, retransmission, or reception antenna for radio, television, or wireless phone or other personal communication systems would produce electromagnetic interference with signal transmission or reception. No wind energy conversion system shall be installed in any location along the major axis of an existing microwave communications link where its operation is likely to produce electromagnetic interference in the link's operation.

10. Interconnection. The wind energy conversion system, if interconnected to a utility system, shall meet the requirements for interconnection and operation as set forth by the utility and the Iowa Utilities Board.

11. Wind Access Easements. The enactment of this section does not constitute the granting of an easement by the City. The owner shall provide covenants, easements, or similar documentation to assure sufficient wind to operate the wind energy conversion system unless adequate accessibility to the wind is provided by the site.

12. Shadow Flicker. A shadow flicker model must demonstrate that shadow flicker shall not fall on, or in, any existing residential structure. Shadow flicker expected to fall on a roadway or a portion of a residentially zoned parcel may be acceptable if the flicker does not exceed 30 hours per year, and the flicker will fall more than 100 feet from an existing residence; or the traffic volumes are less than 500 vehicles on the roadway.

A. Map and describe within a 1,000-foot radius of the proposed wind energy system the topography, existing residences, and location of their windows, locations of other structures, wind speeds and directions, existing vegetation and roadways. The model shall represent the most probable scenarios of wind constancy, sunshine constancy, and wind directions and speed.

B. Calculate the locations of shadow flicker caused by the proposed project and the expected durations of the flicker at these locations, calculate the total number of hours per year of flicker at all locations.

C. Identify problem areas where shadow flicker will interfere with existing or future residences and roadways and describe proposed mitigation measures, including, but not limited to, a change in sitting of the wind energy conversion system, a change in the operation of the wind energy conversion system, or grading or landscaping mitigation measures.

13. Appearance. The owner of any wind energy conversion system shall maintain such system in a safe and attractive manner, including replacement of defective parts, painting, cleaning, and other acts that may be required for the maintenance and upkeep of the function and appearance of such a system. The owner shall maintain the ground upon which the system is located in an orderly manner, such that it is free of debris, tall grass and weeds, and any structures remain quality in appearance.

14. Insurance. The owner of a wind energy conversion system shall maintain $1,000,000.00 liability insurance as a condition of obtaining a permit and shall file a copy of said insurance policy with the City. Upon granting of a permit, the owner shall assume full responsibility for any and all damages, claims, expenses, liabilities, judgments and costs of any kind, including reasonable attorney's fees related to or caused by the erection, location, use or removal of a facility, and shall agree to hold the City harmless, indemnify and defend it from all such liabilities incurred or judgments entered against it as a result of the erection, location, use or removal of the facility.

15. Removal. Any wind energy conversion system that remains non-functional or inoperative for a continuous period of 180 consecutive days shall be considered abandoned and shall constitute a public nuisance. Within the next 180 days, after notice from the City, the owner shall reactivate the tower or it shall be dismantled and removed at the owner's expense. Removal of the system includes the entire structure, including foundations, transmission equipment and fencing from the property.

A. Non-function or lack of operation may be proven by reports from the interconnected utility. The owner and successors shall make available to the City all reports to and from the users of energy from the wind energy system if requested.

B. If removal of tower and appurtenant facilities is required, the City Council shall notify the owner. If the City removes a tower and appurtenant facilities, it may sell the salvage to defray the cost of removal. Further, the City may collect any remaining costs of removal from the owner of the wind energy conversion system or owner of the ground upon which it is located. The City Clerk shall send a statement of the total expense incurred to the property owner who has failed to abide by the notice. If the amount shown by the statement has not been paid within one (1) month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.

C. The Board of Adjustment can revoke a wind energy conversion system permit at any time if the requirements set forth in this chapter and/or any conditions imposed by the Board are not met.

16. Right of Entrance. By the acceptance of a permit, the owner grants permission to the City, to enter on the property to remove the tower and all fixtures pursuant to the terms of the permit and to assure compliance with the conditions set forth in the permit.

17. New Technologies. Should new technology present itself within the term of any permit or lease that is more effective, efficient, and economical, the permit holder may petition the City to allow the upgrade, provided the upgrade does not alter the conditions set forth in this chapter.

18. Engineer Certification. Application for wind energy conversion systems shall be accompanied by standard drawings of the wind turbine structure, including the tower, base, and footings. An engineering analysis of the tower showing compliance with the application regulations and certified by a licensed professional engineer shall also be submitted.

19. Utility Notification. A wind energy conversion system shall not be installed until evidence has been given that the utility company has been informed of the customer’s intent to install an interconnected customer-owned generator.

20. Inspections. At least every 24 months, every tower shall be inspected by a qualified professional who is regularly involved in the maintenance, inspection and/or erection of wind energy conversion systems. At a minimum, this inspection shall be conducted in accordance with the inspection checklist provided in the Electronics Industries Association (EIA) Standard 222, *Structural Standards for Steel Antenna Towers and Antenna Support Structures*. A copy of the inspection record shall be provided to the City.

21. Ice Shedding. Wind energy conversion system owners shall ensure that ice from the rotor blades does not impact any off-site properties.

22. Climbing Apparatus. All climbing apparatuses must be located twelve (12) feet from the ground and the tower must be designed to prevent climbing within the first 12 feet.

23. Fencing. All wind energy conversion systems and associate guy wire anchor points shall be enclosed by a six-foot-high opaque fence with smooth side to the outside, no more than one-inch gaps, and a securely locked gate to limit uncontrolled access and reduce safety hazards.

159.08 APPLICATION PROCESS. All applicants who wish to locate a wind energy conversion system must submit to the City's Board of Adjustment, on the forms provided by the City, a plan including the following information:

1. Complete property dimensions.

2. Location and full dimensions of all buildings existing on the property where the system is to be located, including exterior dimensions, height of buildings, and all uses on the property.

8. Evidence that the proposed wind energy conversion system model has an operational history of at least one year.

9. Evidence that the applicant has notified the utility that the customer intends to install an interconnected customer-owned generator, and that the generator meets the minimum requirements established by the utility and the Iowa Utilities Board. Off grid systems are exempt from this requirement.

10. Evidence that the wind energy conversion system does not violate any covenants of record.

11. Evidence from a qualified professional that the site is feasible for a wind energy conversion system, or that covenants, easements, and other assurance to document sufficient wind to operate the wind energy conversion system have been obtained.

Installation types are:

2. "Building-integrated" means an integral part of a principal or accessory building. Building-integrated systems include but are not limited to photovoltaic or hot water systems that are contained within roofing materials, windows, skylights, and awnings.

3. "Ground-mount" means a solar energy system mounted on a rack or pole that rests on or is attached to the ground. Ground-mount systems can be either accessory or principal uses.

4. "Roof-mount" means a solar energy system mounted on a rack that is fastened to or ballasted on a building roof. Roof-mount systems can be either accessory or principal uses.

   A. "Parallel roof-mount" means a roof-mount solar energy system in which the solar panels are installed parallel to the roof underneath and no more than 12" from the surface of the roof. A parallel roof-mount system must not extend beyond the roof surface underneath it.

5. "Wall-mount" means a solar energy system mounted on the side of a principal or accessory building, usually but not always for the purpose of providing direct supplemental space heating by heating and recirculating conditioned building air.

6. "Solar farm" means a commercial facility that converts sunlight into electricity by means of photovoltaics (PV) for the primary purpose of wholesale sales of generated electricity. A solar farm is the principal land use for the parcel on which it is located.

7. "Solar garden" means a commercial solar-electric (photovoltaic) array that provides retail electric power (or a financial proxy for retail power) to multiple households or businesses residing or located off-site from the location of the solar energy system. A community solar system/solar garden is a principal use.

8. "Solar resource" means a view of the sun from a specific point on a lot or building that is not obscured by any vegetation, building, or object for a minimum of

four hours between the hours of 9:00 a.m. and 3:00 p.m. Standard Time on all days of the year.

9. "Solar access" means unobstructed access to direct sunlight on a lot or building through the entire year including access across adjacent parcel air rights, for the purpose of capturing direct sunlight to operate a solar energy system.

161.03 PERMITTED ACCESSORY USE. Solar energy systems shall be allowed as an accessory use in all zoning classifications where structures of any sort are allowed, subject to certain requirements as set forth below.

1. Height. Solar energy systems must meet the following height requirements:

A. Building- or roof-mounted solar energy systems shall not exceed the maximum allowed height in any zoning district. For purposes of height measurement, solar energy systems other than building-integrated systems, shall be given an equivalent exception to height standards as building-mounted mechanical devices or equipment (see 165.42).

B. Ground- or pole-mounted solar energy systems shall not exceed 18 feet in height when oriented at maximum tilt.

2. Set-back. Solar energy systems must meet the accessory structure setback requirements for the zoning district and primary land use associated with the lot on which the system is located.

A. Roof- or Building-Mount Solar Energy Systems. In addition to the building setback, the collector surface and mounting devices for roof-mounted solar energy systems shall not extend beyond the exterior perimeter of the building on which the system is mounted or built, unless the collector and mounting system has been explicitly engineered to safely extend beyond the edge, and set-back standards are not violated. Exterior piping for solar hot water systems shall be allowed to extend beyond the perimeter of the building on a back or side yard exposure. Solar collectors mounted on the sides of buildings and serving as awnings are considered to be building-integrated systems and are regulated as awnings.

B. Ground-Mount Solar Energy Systems. Ground-mounted solar energy systems may not extend into the side-yard or rear setback when oriented at minimum design tilt, except as otherwise allowed for building mechanical systems.

3. Location and Visibility.

A. Building-Integrated and Wall-Mount Solar Energy Systems. Building-integrated and wall-mount solar energy systems shall be allowed regardless of whether the system is visible from the public right-of-way, provided the building component in which the system is integrated or mounted meets all required set-back, land use, and performance standards for the district in which the building is located. The color of the solar collectors is not required to be consistent with other building materials.

B. Roof-Mount Solar Energy Systems. Roof-mount solar energy systems shall not be restricted for aesthetic reasons if the system is not visible from the closest edge of any public right-of-way other than an alley. Roof-mounted systems that are visible from the nearest edge of the street frontage

right-of-way shall not have the highest finished pitch steeper than the roof pitch on which the system is mounted, and shall be no higher than twelve (12) inches above the roof. The color of the solar collectors is not required to be consistent with other roofing materials.

C. Ground-Mount Solar Energy Systems. Except as indicated in other parts of this chapter, ground mount solar energy systems shall be treated as an accessory structure and shall be subject to the requirements of an accessory structure. In particular, a ground-mount solar energy system may not be located in the required front yard of a lot.

D. Reflectors. No solar energy system using an external reflector to enhance solar production shall be installed within the City limits of the City of Cresco.

4. Coverage. Roof- or building-mount solar energy systems, excluding building-integrated systems, shall allow for adequate roof access for fire-fighting purposes to the south-facing or flat roof upon which the panels are mounted. Ground-mount systems shall be exempt from impervious surface calculations if the soil under the collector is maintained in vegetation and is not compacted. Foundations, gravel, and compacted soils are considered impervious.

5. Historic Buildings. Solar energy systems on historically designated buildings shall be installed only as allowed by the U.S. Department of Interior.

6. Plan Approvals.

A. Building-Integrated Systems: No approvals by the City of Cresco shall be required for building-integrated systems beyond the normal building permit process.

B. Wall-Mount, Parallel Roof-Mount and Roof-Mount Systems on Flat Roofs. No approvals by the City of Cresco shall be required for wall-mount solar energy systems, parallel roof-mount solar energy systems, or roof-mount solar energy systems on flat roofs.

C. Non-Parallel Roof-Mount and Ground-Mount Systems. Non-parallel roof-mount and ground-mount systems shall require a building permit, as described in Chapter 155 of the Code of Ordinance of the City of Cresco.

(1) Plan applications for non-parallel roof-mounted systems shall indicate the height of the highest point on the solar collector relative to the roof directly under that point, along with drawings showing the location of the system on the building.

(2) Plan applications for ground-mount systems shall indicate the location of solar energy system on the parcel, the lot lines, and the set-backs required. In addition, they shall indicate the height of the installation at maximum tilt and the ground footprint at minimum tilt, along with a description of the ground cover to be used under the system.

7. Approved Solar Components. Electric solar energy system components must have a UL or equivalent listing and solar hot water systems must have an SRCC rating.

8. Compliance with Building Code. All solar energy systems shall be consistent with the State of Iowa Building Code, and solar thermal systems shall comply with HVAC-related requirements of the Energy Code.

9. Compliance with State Electric Code. All photovoltaic systems shall comply with the Iowa State Electric Code.

10. Compliance with State Plumbing Code. Solar hot water systems shall comply with applicable Iowa State Plumbing Code requirements.

11. Utility Notification. All solar energy systems that connect with an electric circuit serviced by the local electric utility (grid-tied systems) shall comply with the interconnection requirements of the electric utility. Systems not so connected (off-grid systems) are exempt from this requirement.

161.04 PRINCIPAL USES.

1. Solar Garden. The City of Cresco permits the development of community solar gardens, subject to the following standards and requirements:

A. Rooftop Solar Gardens. Subject to the requirements of Section 1.03, rooftop solar gardens are permitted in all districts where buildings are permitted.

B. Ground-Mount Solar Gardens. Ground-mount community solar energy systems must be less than two acres in total size, and are a conditional use in all districts.

C. Interconnection. An interconnection agreement must be in place with the local electric utility before work commences on installation of a solar garden.

D. Dimensional Standards. All structures must comply with set-back, height, and coverage limitations for the district in which the system is located.

E. Site Security. A solar garden located wholly or partly within the City limits of the City of Cresco must be completely surrounded by a chain link fence at least six feet high. All gates must be locked at all times unless personnel are on site. All components must be located at least four feet from the fence.

F. Other Standards. Ground-mount systems must comply with all required standards for structures in the district in which the system is located.

G. Ground Cover. The City of Cresco encourages (but does not require) owners of ground-mount solar gardens to plant the land underneath the solar collectors in pollinator friendly wildflowers. Such plantings must be maintained in such a way that they do not go to weeds or become predominately grass, but afford passers-by a predominantly flower view during blooming season. Such plantings shall be considered flower beds and shall be exempt from the mowing requirements of Chapter 52. If wildflowers are not planted, the land underneath the collectors must be neatly maintained in compliance Chapter 52 of the Code of Ordinances of the City of Cresco.

H. Building Permit. Development of a solar garden inside the City limits of the City of Cresco requires the issuance of a building permit, according to the process detailed in the City of Cresco Code of Ordinances Chapter 155.

I. Decommissioning. The City of Cresco requires that, as part of the construction permit application, a decommissioning plan shall be submitted to ensure that the facilities are properly removed after their useful life. Decommissioning of the solar garden must occur in the event it (or a majority part of it) is not in use for twelve consecutive months. The plan shall include provisions for removal of all structures and foundations, restoration of the soil and vegetation, and a plan ensuring financial resources will be available to fully decommission the site. Disposal of the solar panels, racks, and foundations must meet state requirements applicable at the time of decommissioning. The City of Cresco may require the posting of a bond, letter of credit or the establishment of an escrow account to ensure proper decommissioning.

2. Solar Farm: The City of Cresco permits the development of solar farms, subject to the following standards and requirements:

A. Development. A solar farm may be developed only on land zoned A-1 (Agricultural) at the time of the development.

B. Stormwater and NPDES. If the City of Cresco has stormwater management, erosion and/or sediment control provisions, and/or NPDES permit requirements at the time of the development, solar farms shall be subject to those requirements.

C. Ground Cover and Buffer Areas. Ground around and under solar arrays and in project buffer areas shall be planted and maintained in perennial vegetated ground cover, and meet the following standards:

(1) Top soils shall not be removed during development, unless part of a remediation effort.

D. Soils shall be planted and maintained in perennial vegetation to prevent erosion, manage run off, and build soil. Seeds may include a mix of grasses and wildflowers, but shall be predominantly wildflowers, ideally native to the region that will result in a short stature prairie with a diversity of forbs or flowering plants that bloom throughout the growing season. Blooming shrubs may be used in buffer areas as appropriate for visual screening. Seed mixes and maintenance practices should be consistent with recommendations made by qualified natural resource professionals such as those from the Iowa Department of Natural Resources, Howard County Soil and Water Conservation Service, or the Natural Resource Conservation Service. Plant material must not have been treated with systemic insecticides, particularly neonicontinoids. Such plantings must be maintained in such a way that they do not go to weeds or become predominantly grass, but afford passers-by a predominantly flower view during blooming season. Such plantings shall be considered flower beds and shall be exempt from the mowing requirements of Chapter 52. If wildflowers are not planted, the land underneath the collectors must be neatly maintained in compliance Chapter 52 of the Code of Ordinances of the City of Cresco.

E. Foundations. A qualified engineer shall certify that the foundation and design of the solar panels' racking and support is within accepted professional standards, given local soil and climate conditions.

F. Other Standards and Codes. All solar farms shall be in compliance with all applicable local, State and federal regulatory codes, including the State of Iowa Uniform Building Code, as amended; and the National Electric Code, as amended.

G. Power and Communication Lines. Power and communication lines running between banks of solar panels and to nearby electric substations or interconnections with buildings shall be buried underground. Exemptions may be granted by the City of Cresco in instances where shallow bedrock, water courses, or other elements of the natural landscape interfere with the ability to bury lines, or distance makes undergrounding infeasible, at the discretion of the City of Cresco's consulting engineer.

H. Site Security. A solar farm located wholly or partly within the City limits of the City of Cresco must be completely surrounded by a chain link fence at least six feet height. All gates must be locked at all times unless personnel are on site. All components must be located at least four feet from the fence.

I. Site Plan Required. A detailed site plan for both existing and proposed conditions must be submitted, showing location of all solar arrays, other structures, property lines, rights-of-way, service roads, floodplains, wetlands and other protected natural resources, topography, electric equipment, and all other characteristics requested by the City of Cresco. The site plan shall also show all zoning districts.

J. Aviation Protection. For solar farms located within 500 feet of an airport or within approach zones of an airport, the applicant must complete and provide the results of the Solar Glare Hazard Analysis Tool (SGHAT) for the Airport Traffic Control Tower cab and final approach paths, consistent with the Interim Policy, FAA Review of Solar Energy Projects on Federally Obligated Airports, or most recent version adopted by the FAA.

K. Agricultural Protection. Solar farms must comply with site assessment or soil identification standards that are intended to protect agricultural soils.

L. Decommissioning. A decommissioning plan shall be required to ensure that facilities are properly removed after their useful life. Decommissioning of the installation must occur in the event that a majority of the solar panels are not in use for twelve consecutive months. The plan shall include provisions for removal of all structures and foundations, restoration of soil and vegetation and a plan ensuring financial resources will be available to fully decommission the site. Disposal of the solar panels, racks, and foundations must meet State requirements applicable at the time of decommissioning. The City of Cresco shall require the posting of a bond, letter of credit or the establishment of an escrow account to ensure proper decommissioning.

161.05 RESTRICTIONS ON SOLAR ENERGY SYSTEMS LIMITED. As of the effective date or this ordinance, new homeowners' agreements, covenants, common interest community standards, or other contracts between multiple property owners located within the City of Cresco shall not restrict or limit solar energy systems to a greater extent than the City of Cresco's solar energy standards.

161.06 SOLAR ACCESS. The City of Cresco encourages protection of solar access in all new subdivisions and allows for solar resources to be protected consistent with Iowa Statues.

1. Solar Easements Allowed. The City of Cresco allows solar easements to be filed, consistent with Iowa State Code 564A.7. Any property owner can purchase an easement across neighboring properties to protect access to sunlight. The easement can apply to buildings, trees, or other structures that would diminish solar access. In situations where the easements are not voluntarily agreed to, the District Court, acting as the solar access regulatory board, may determine whether or not granting an easement is appropriate, consistent with Iowa Statutes 564A.3.

GENERAL REGULATIONS

165.02 DISTRICTS. In order to classify, regulate, and restrict the location of trades and industries, and the location of buildings designed for specified uses, to regulate and limit the height and bulk of buildings hereafter erected or altered; to regulate and limit the intensity of the use of lot areas, and to regulate and determine the area of yards, courts, and other open spaces within and surrounding such buildings, the City is hereby divided into nine (9) classes of districts. The use, height, and area regulations are uniform in each class of district, and said districts shall be known as:

A-1 Agricultural District

R-1 Single-Family Residential District

R-2 Light Density Residential District

R-3 Medium Density Residential District

R-4 Mobile Home Park District

C-1 Commercial District

C-2 Central Business Commercial District

M-1 Light Industrial District

H Medical District

165.03 BOUNDARIES. The boundaries of these districts are indicated upon the Official Zoning Map of the City, which map is made a part of this chapter by reference. The said Official Zoning Map and all notations, references and other matters shown thereon shall be as if the notations, references and other matters set forth by said map were all fully described herein. The Official Zoning Map shall be filed in the Office of the City Clerk in the City Hall and shall be identified by the signature of the Mayor, attested by the City Clerk under the following words: *This is to certify that this is the Official Zoning Map referred to in the Code of Ordinances of the City of Cresco, Iowa.* The district boundaries are either lot lines or the centerlines of streets and alleys, unless otherwise shown, and where the districts designated are bounded approximately by street, alley, or lot lines and are not dimensioned otherwise, the lot lines or the center lines of streets and alleys shall be construed to be the boundary of the district.

165.04 CONFORMANCE REQUIRED. Except as hereinafter specified, no building or structure shall be erected, converted, enlarged, reconstructed, moved or structurally altered, nor shall any building or land be used which does not comply with all of the district regulations established by his chapter for the district in which the building or land is located.

165.05 CONTINUING EXISTING USES. The lawful use of a building existing at the time of the enactment of this chapter may be continued even though such use may not conform with the regulations of this chapter for the district in which it is located. Any use in existence at the adoption hereof which was not an authorized, "nonconforming use" under previous Zoning Ordinances, shall not be authorized to continue as a nonconforming use pursuant to this chapter, or amendments thereto.

165.06 NONCONFORMING USES IN ANY R DISTRICT. Within the residential districts established by this zoning ordinance there exist lots, structures, uses of land and

structures, and characteristics of use which were lawful before these zoning regulations became effective or were amended, but which are prohibited, regulated, or restricted under the terms of this chapter or future amendment. It is the intent of this section to permit these nonconformities to continue until they are removed, but not to encourage their survival. Further nonconformities shall not be enlarged upon, expanded, extended, constructed, or reconstructed, or used as grounds for adding other structures or uses prohibited elsewhere in the same district, except as follows:

1. Substitution. If no structural alterations are made, a nonconforming use of a building or structure may be changed to another nonconforming use of the same or of a more restricted classification. Whenever a nonconforming use has been changed to more restricted use or to a conforming use, such use shall not thereafter be changed to a less restricted use.

2. Discontinuance. In the event that a nonconforming use of any building, structure or land is discontinued for a period of two years, the use of the same shall conform thereafter to the uses permitted in the district in which it is located. The use of land upon which no building or structure is erected or constructed which does not conform to the provisions of this chapter and the use of land upon which no building is erected or constructed which becomes nonconforming by reason of a subsequent change in this chapter, shall be discontinued within one year from the date of the change.

3. Replacing Damaged Buildings. Any nonconforming building or structure damaged more than 60 percent of its then fair market value, exclusive of the foundations at the time of damage by fire, flood, explosion, war, riot, or act of God, shall not be restored or reconstructed and used as before such happening; but if less than 60 percent damaged above the foundation, it may be restored, reconstructed or used as before provided that it be done within six (6) months of such happening.

165.07 NONCONFORMING USES IN ANY DISTRICT OTHER THAN AN R DISTRICT.

1. Structural Alterations and Enlargements. Any building or structure in any district other than an R District devoted to a use made nonconforming by this chapter may be structurally altered or enlarged in conformity with the lot area, the lot frontage, yard and height requirements of the district in which situated, provided such enlargement or alteration of construction shall be limited to buildings on land owned of record by the owner of the land devoted to the nonconforming use prior to the effective date of the ordinance codified by this chapter. In the event of such structural alterations or enlargement of buildings, the premises involved may not be used for any nonconforming use other than the use existing on the effective date of the ordinance codified by this chapter, other provisions of this chapter notwithstanding.

2. Discontinuance. In the event that a nonconforming use of any building or premises is discontinued for a period of more than two years, the use of the same shall conform thereafter to the uses permitted in the district in which it is located. The use of land upon which no building or structure is erected or constructed which does not conform to the provisions of this chapter, and the use of land upon which no building is erected or constructed, which becomes nonconforming by reason of a subsequent change in this chapter, shall be discontinued within two years from the date of the change.

3. Replacing Damaged Buildings. Any nonconforming building or structure damaged more than 70 percent of its then fair market value, exclusive of the foundations at the time of damage by fire, flood, explosion, war, riot, or act of God, shall not be restored or reconstructed and used as before such happening; but if less than 70 percent damaged above the foundation, it may be restored, reconstructed, or used as before, provided that it be done within six (6) months of such happening.

165.08 STREET FRONTAGE REQUIRED. Lots containing any building used in whole or in part for residence purposes shall abut for at least 40 feet on at least one street, or unless it has an exclusive unobstructed private easement of access or right-of-way of at least 20 feet wide to a street; and there shall be not more than one single-family dwelling for such frontage or easement, except that a common easement of access at least 50 feet wide shall be provided for two or more such single-family or for one or more two-family or multiple dwellings.

165.09 ACCESSORY BUILDINGS AND GARAGES. No accessory building or structure which exceeds six (6) feet in height shall be erected in a required yard or court, except as provided hereinafter.

1. An accessory building or structure that is located entirely within the principal building area of the lot (the lot minus the required yards and courts) whether attached or detached to the principal building.

2. The garage for any principal building may be erected; provided, however, such garage building shall comply with the following requirements:

A. The garage shall set back no less than seven feet from the rear lot line or shall be located no closer than 30 feet to any garage or principal building which is located on the opposite side of the alley, whichever is the greater requirement.

B. An attached garage building shall be considered an extension of the principal building and shall comply with all minimum yard requirements for the principal building other than the exception above permitting the garage to be located within seven feet of an alley or rear property line.

C. The garage building shall not exceed one story or 18 feet in height.

3. An accessory structure that is adaptable to underground construction (such as a bomb or tornado shelter, garage, wine cellar, etc.) may be constructed beneath the ground surface of any yard area, provided that said structure shall comply with the following requirements:

A. No portion of the structure shall be located less than seven feet, measured horizontally, from any lot line from which a minimum surface yard area is required.

B. The surface area covering the structure shall be finished in a manner natural to the landscape so as to entirely conceal the underground structure.

C. No portion of the grade of the finished surface area above the structure may exceed a two-foot height increase above the normal finished grade of any required yard.

4. Accessory buildings and structures. This section shall not be interpreted to prohibit the construction of two-car garages.

5. Storage sheds shall not exceed 150 square feet, shall be located no less than seven feet measured horizontally from any lot line, and shall require a building permit.

6. Structures, such as solar energy conductors, shall be located only in the rear yards within seven feet of any side or rear property lines.

7. No accessory building or garage shall be constructed on any lot, regardless of the size of the lot or the zone in which it is located, without a variance, unless it is accessory to a primary dwelling or residence. An accessory building or garage shall be finished, sided or painted to match the primary dwelling or residence, and shall be constructed so as to be aesthetically consistent, both in composition, design, color and materials, with the neighborhood or district within which it is located.

165.10 CORNER LOTS. For corner lots, platted after the effective date of the ordinance codified by this chapter, the street side yard shall be equal in width to the minimum required side yard for the district in which it is located, plus 20 feet; i.e., for a minimum required side yard of 10 feet, the street side yard shall be not less than 30 feet; provided, however, this regulation shall not be interpreted as to require a side street yard of greater width than the minimum required front yard width. For corner lots, platted after the effective date of the ordinance codified by this chapter, the minimum required lot width shall be increased by an amount not less than 20 feet so as to allow for the additional required street side yard, i.e., for a minimum required lot width of 60 feet, the minimum width of a corner lot shall be not less than 80 feet. On corner lots platted and of record at the time of the effective date of the ordinance codified by this chapter, the same regulations shall apply except that this regulation shall not be so interpreted as to reduce the buildable width of the corner lot facing an intersecting street and of record or as shown by existing contract of purchase at the time of the effective date of the ordinance codified by this chapter, to less than 28 feet or to prohibit the erection of an accessory building. However, garages and addition to homes may be erected on corner lots if they are erected no closer to the intersecting street than the buildings that already exist on the lot. (See definition of "lot lines" in Section 165.01 of this chapter.) On any corner lot, the depth of a front yard or side street yard abutting a "major street" shall be measured from the proposed right-of-way lines shown on the Official Major Street Plan.

165.11 FRONT YARD. In any district there shall be a minimum front yard required as stated in the yard requirements for that particular district; provided, however, where lots comprising 30 percent or more of the frontage within 200 feet of either side lot line are developed with buildings at a greater or lesser setback, the front yard requirement shall be the average of these building setbacks and the minimum front yard required for the undeveloped lots. In computing the average setback, buildings located on reverse corner lots or entirely on the rear half of lots shall not be counted. The required front yard, as computed herein, need not exceed 50 feet and shall be not less than 20 feet in any case. The front yard depth of any lot abutting a "major street" shall be measured from the proposed right-of-way lines shown on the Official Major Street Plan.

165.12 FENCES, WALLS AND VISION CLEARANCE.

1. On a corner lot, nothing shall be erected, placed, planted, or allowed to grow in such a manner a to impede vision between a height of two and one-half feet and ten feet above the centerline grades of the area described as follows: that area bounded by the street right-of-way lines of a corner lot and a straight line joining points on said right-of-way lines 25 feet from the point of intersection of said right-of-way lines. This regulation shall not apply to the C-2 District.

2. In any district, fences and walls not exceeding six feet in height are permitted within the limits of side and rear yards. A fence or wall not exceeding four feet in height is permitted within the limits of front yards. In the case of retaining walls supporting embankments, the above requirements shall apply only to that part of the wall above the ground surface of the retained embankment.

A. In any district where a fence or wall is required by a section of this chapter, the subdivision ordinance, or other ordinance, to serve as a screening wall, buffer wall, or other separating or protective wall, the restrictions of this subsection shall yield to the requirements of the specific ordinance.

B. Grade for determining the maximum height above grade for fences and walls:

(1) For a fence or wall along a street right-of-way, grade shall be the highest point of the pavement lying between the intersection of the centerline and a projection of the side lot lines.

(2) For a fence or wall between the front lot line and the front building line, grade shall be prorated between the grade at the front lot line and the grade shall be the grade at the building.

C. Fences and walls on a corner lot shall comply with the vision clearance requirements of subsection 1 of this section.

3. No lot or part of a lot within the City shall be enclosed in whole or in part with any barbed wire or electrically charged wire. This requirement shall not apply to those lots which are bounded on either side by an A-1 District.

4. The respective owners of adjoining tracts of land shall, upon written request of either owner and by mutual agreement filed with the City Clerk, be permitted to erect a fence on the property line; provided, the agreement indicates who will erect and maintain partition fences, or contribute thereto, and keep the same in good repair throughout the year.

5. In case a landowner desires to erect a fence when the owner of the adjoining land does not sign a mutual agreement, the landowner erecting the fence shall place the fence three feet inside the property line.

6. No person shall construct a fence upon land owned by another person without the other person's written consent. Violation of this section may be punished as a municipal infraction as provided in Chapter 4 of this Code of Ordinances.

7. All fences or other improvements shall be located and constructed in such a manner not to interfere with any utilities.

8. No person or entity shall erect, construct or place any fence upon any property without first applying for and receiving a fence permit through the Zoning Administrator. The permit application fee is ten dollars ($10.00), payable upon approval of the fence application. The Zoning Administrator shall determine whether a proposed structure or growth qualifies as a fence, as defined in Section 165.01 of this chapter, and whether it meets the requirements of this chapter.

9. Fences shall be constructed of customarily used materials such as wood, PVC, wrought iron, chain link, or other similar materials, unless specified otherwise herein. The use of materials such as corrugated or sheet metal, chicken wire, woven wire, snow fence, or temporary construction fencing shall not be permitted for permanent

fencing. Wood fences shall be constructed of treated lumber, cedar, redwood, or similar types of wood that are resistant to decay. Determination of material acceptability shall be made by the Zoning Administrator.

10. All fences shall be constructed in a sound and sturdy manner and shall be maintained in a state of good repair and shall be aesthetically consistent, both in composition, design, color and materials, with the neighborhood or district within which it is located.

11. Fences consisting of hedges, planting material, landscape features or similar materials shall be constructed and maintained in a good and workmanlike manner and shall be aesthetically consistent with the neighborhood or district within which it is located. No poisonous, noxious or dangerous planting materials may be used and the fence may not be designed or constructed in such a way as to cause pain or injury to persons or animals. No spikes, broken glass, barb wire, electrical charge or similar materials shall be allowed.

12. No signs, writings, drawings, advertising materials or similar items shall be placed on any portion of a fence visible to the public or adjoining property owners unless otherwise specifically allowed by this Code of Ordinances and approved by the Zoning Administrator.

13. The Zoning Administrator may order the removal, repair or reconstruction of any fence which does not comply with this chapter or any other chapter of this Code of Ordinances. Notice of such removal, repair or reconstruction shall be provided by regular mail to the property owner. The property owner shall have 30 days from the date of such notice to remove, repair or reconstruct the fence as set forth in the notice. If the owner fails to comply with the notice, the City will remove the fence and will charge the cost of such removal against the subject property and its owner.

165.13 REQUIRED YARD CANNOT BE REDUCED. No lot shall be reduced in size so as to make the width or total area of the lot, or any yard, or any other open space, less than the minimum required by this chapter. No part of a yard or other open space provided about any building or structure for the purpose of complying with the provisions of this chapter shall be included as part of a yard or other open space required under this chapter for another building or structure. Off-street parking and loading areas may occupy all or part of any required yard or open space except as otherwise specified in this chapter.

165.14 BUILDING LINES ON APPROVED PLATS. Whenever the plat of a land subdivision approved by the Planning and Zoning Commission and on record in the Office of the County Recorder shows a setback building line along any frontage for the purpose of creating a front yard or side street yard line, the building line thus shown shall apply along such frontage in place of any other yard line required in this chapter unless specific yard requirements in this chapter requires a greater setback.

165.15 PENDING APPLICATION FOR BUILDING PERMITS. Nothing herein contained shall require any change in the overall layout, plans, construction, size, or designated use of any building, or part thereof, for which approvals and required building permits have been granted before the enactment of this chapter, the construction in conformance with such plans shall have been started prior to the effective date of the ordinance codified by this chapter and completion thereof carried on in a normal manner and not discontinued for reasons other than those beyond the builder's control.

165.16 AGRICULTURAL USES EXEMPT. The provisions of this chapter shall not prohibit the use of land for agricultural purposes or the construction or use of buildings or structures incidental to the use for agricultural purposes of the land on which buildings or structures are located and no Zoning Certificates shall be required for any such use, building, or structure.

OFF-STREET PARKING AND LOADING AREAS

165.32 OFF-STREET PARKING AND LOADING AREAS - INTENT. It is the intent of this section to prevent traffic congestion and to provide for proper traffic safety by preserving the public thoroughfares for the unimpaired movement of pedestrian and vehicular traffic; therefore, it shall be recognized that the requirements of this section are minimum and that in certain uses of land, these requirements may be inadequate. Where review of the site plans and intended land use indicate through the application of proven standards of experienced statistics that the requirements herein are inadequate for the specific land use adaptation, a greater requirement for off-street parking space is justified and may be required to preserve the intent of this section.

165.33 OFF-STREET LOADING SPACE REQUIRED. In any district, except the C-2 Commercial District, in connection with every building or part thereof hereafter erected, having a gross floor area of 10,000 square feet or more, which is to be occupied by manufacturing, storage, warehouse, goods display, retail store, wholesale store, market, hotel, hospital, mortuary, laundry, dry cleaning or other uses similarly requiring the receipt or distribution by vehicles of material or merchandise, there shall be provided and maintained on the same lot with such building, at least one off-street loading space plus one additional such loading space for each 20,000 square feet or major fraction thereof of gross floor area so used in excess of 10,000 square feet.

OPEN SPACE REQUIREMENTS

165.35 OPEN SPACE REQUIREMENTS. It is recognized that the extensive use and excessive congestion of land induces the natural elements to become hazardous to the general health and welfare of the community. Therefore, the intent of this section is to require not less open space than that which is necessary to preserve the basic qualities and beauty of nature.

1. Open Space Requirements. All buildings and land use in any R District shall comply with the following:

A. On each lot there shall be provided an open space equal to at least 25 percent of the total lot area; said space shall be unencumbered with any structure or off-street parking and shall be landscaped and well maintained with grass, trees and shrubbery, except for areas used as pedestrian walks and ingress-egress drives; and ingress-egress drives shall not exceed two 20-foot lanes that are separated by open space.

B. Each individual and unattached principal structure of an apartment or office complex shall be separated from any other principal structure in the complex by an open space of not less than 16 feet in width.

C. Where door and windows in the exterior walls of a living unit face a wall of the same building and/or a wall of another building in the same complex site, there shall be provided a minimum open space of not less than 30 feet. Said distance to be measured on a line projected at right angles at the opening from the wall containing the opening to the opposite wall.

D. Cantilevers and open porches may project from the building wall into the required open space (court only) not more than four feet; open stairways may project from the building wall into the required open space (court only) not more than seven and one-half feet. Stairways when located in the required open space (court) shall be cantilevered or supported by the necessary columns only; support by a wall other than the exterior building wall is strictly prohibited.

2. All buildings and land use in any C District shall comply with the following except as herein provided:

A. Any R District use in any C District shall comply with subsection 1 above.

B. Any commercial use in the C-2 District shall be exempt from this section.

C. On each lot there shall be provided an open space equal to at least 20 percent of the total lot area, said space shall be unencumbered with any structure or off-street parking and shall be landscaped and well maintained with grass, trees and shrubbery, except for areas used as pedestrian walks and ingress-egress drives; and ingress-egress drives shall not exceed two 20-foot lanes that are separated by open space.

D. Each individual and unattached principal structure of an apartment or office complex shall be separated from any other principal structure in the complex by an open space of not less than 16 feet in width.

E. Where doors and windows in the exterior walls of a living unit face a wall of the same building and/or a wall of another building in the same complex site, there shall be provided a minimum open space of not less than 30 feet. Said distance to be measured on a line projected at right angles at the opening, from the wall containing the opening to the opposite wall.

F. Cantilevers and open porches may project from the building wall into the required open space (court only) not more than four feet; open stairways may project from the building wall into the required open space (court only) not more than seven and one-half feet. Stairways when located in the required open space (court) shall be cantilevered or supported by the necessary columns only; support by a wall other than the exterior building wall is strictly prohibited.

3. All buildings and land use in any M District shall comply with the following:

A. On each lot there shall be provided an open space equal to at least 20 percent of the total lot area; said space shall be unencumbered with any structure or off-street parking and shall be landscaped and well maintained with grass, trees and shrubbery, except for areas used as pedestrian walks and ingress-egress drives; and ingress-egress drives shall not exceed two 20-foot lanes which are separated by open space.

B. Each individual and unattached principal structure of an industrial or office complex shall be separated from any other principal structure in the complex by an open space of not less than 16 feet in width.

BUFFERS REQUIRED

165.36 BUFFERS REQUIRED. It is recognized that the transition from one district to another district of contrasting and conflicting uses is across a barrier and line in theory and not existence. Therefore, it is the intent of this section to require the actual provision of a physical barrier so as to reduce any possible harmful or detrimental influence one district use may or may not have to an abutting and contrasting or conflicting district use.

165.37 CONDITIONS FOR REQUIRING A BUFFER. The following conditions shall require a buffer between abutting districts:

1. All M Districts that abut any R District shall be buffered as required in this section.

2. Any lot in any district having both its front and rear lines abutting a public thoroughfare (a double frontage lot) shall be buffered from the thoroughfare abutting its rear line by one of the buffer methods set forth in this section.

3. Any storage or loading yard in any C or M District which abuts a public thoroughfare shall be restricted from public view by a buffer.

165.38 PERMISSIVE BUFFERS. Buffers required under the provisions of this section or elsewhere in this chapter shall be accomplished by either a buffer wall, buffer park, or approved combination thereof.

1. A Buffer Wall. Such shall be not less than six (6) feet in height, constructed of a permanent low maintenance material such as concrete block, cinder block, brick, concrete, precast concrete, tile block, etc.; the wall shall be designed by an architect or engineer for both structural adequacy and aesthetic quality; the use of weather resistant wood, metal, or manufactured substitutes may be used as an accessory material for aesthetic quality.

2. A Buffer Park. Such park shall be not less than 60 feet in width, designed and landscaped by a qualified architect, engineer, or landscape architect; predominate planting shall be of evergreen type trees, shrubs and plants so as to assure year-round effectiveness; density and height of planting shall be adequate to serve as a solid and impenetrable screen.

165.39 BURDEN OF PROVISION OF A BUFFER. The burden of provision and selection of the buffer shall be as follows:

1. Where two different districts, requiring a buffer between them, are both in an existing improved condition, the above requirement is not retroactive and should a buffer be desired, it shall be by mutual agreement between property owners or as otherwise provided by law. However, in the event of any or all of the improved property is abandoned, destroyed, demolished, etc., for the purpose of renewal, redevelopment, etc., that portion of such property being renewed, redeveloped, etc. shall be considered vacant land subject to the requirements herein.

2. Where one of two different districts requiring a buffer between them is partially developed, the developer of the vacant land shall assume the burden.

3. Where both districts requiring a buffer between them are vacant or undeveloped except for agricultural use, the burden shall be assumed by the developer as the land is improved or developed.

165.40 WAIVER OF BUFFER REQUIREMENT. Where the line between two districts, requiring a buffer, follows a street right-of-way, railroad, stream, or other similar barrier, the requirement for a buffer may be waived, providing such waiver does not permit the exposure of undesirable characteristics of land use to public view.

SITE PLANS

165.41 SITE PLANS. Site plans that are required for review and approval of special uses under Section 165.28 of this chapter shall comply with and illustrate the following:

1. All site plans shall be drawn at a scale not less than one inch equals 100 feet, and six (6) copies of the site plan shall be submitted with zoning permit application.

2. A preliminary site plan clearly illustrating the general methods, spatial distribution, location, etc. to be used for compliance with the requirements of this chapter may be submitted for preliminary land use approval; providing however, the final site plan required by this section shall be submitted, reviewed, and approved prior to the issuance of a building or construction permit.

3. The final site plan required shall include the following legal information:

   A. Legal property owners name and description of property.

   B. Applicant name, requested land use and zoning.

   C. If the applicant is other than the legal owner, the applicant interest shall be indicated and the legal owner's authority to appeal shall be certified legal form.

4. The final site plan shall clearly illustrate and enumerate the following information:

   A. Property boundary lines, dimensions and total area.

   B. Contour lines at intervals of not more than five (5) feet; City datum. If substantial topographic change is proposed, the existing topography shall be illustrated on a separate map, and the proposed finished topography shown on the final site plan.

   C. The availability and location of existing utilities.

   D. The proposed location, size, shape and type of all buildings or structures.

   E. The total square feet of building floor area, both individually and collectively.

   F. The number of dwelling units, bedrooms, offices, etc. as required to determine spatial compliance.

   G. A vicinity sketch showing detailed adjacent existing land uses within 500 feet of the property, and general existing land uses within 1,000 feet of the property.

   H. Existing buildings, rights-of-way, street improvements, overhead utilities, easements, drainage courses, etc.

   I. Parking areas, number of parking spaces proposed, number of parking spaces required by this chapter, type of surfacing to be used, etc.

   J. Walkways, driveways, outside lighting, walls, fences, signs, monuments, statues and other manmade features to be used in the landscape.

K. Location and type of all plants, grass and trees to be used in the landscape. Landscaping to be used for screening purposes shall be illustrated in elevation and prospective as well as plan, with the approximate size and exact name of plants, shrubs or trees to be planted clearly indicated.

L. Walls, fences or other artificial screens to be used as buffers shall be shown in elevation and prospective as well as plan with proposed height and structural material to be used indicated.

M. Traffic considerations, architectural themes, pedestrian movement, etc. and all other considerations pertinent to the proposed uses may be requested for illustration or statistical purposes.

1. Chimneys, cooling towers, fire towers, grain elevators, monuments, penthouses, stacks, stage towers or scenery lofts, tanks, silos, water towers, ornamental towers and spires, radio or television towers or essential mechanical appurtenances may be erected to a height in excess of applicable district regulations, by special permit.

Public, semi-public, or public service buildings, hospitals, sanatoriums, or schools when permitted in a district may be erected to a greater height than otherwise permitted in the district if the building is set back from each property line at least one foot in addition to the minimum yard requirements, for each two feet of additional building height above the height limit otherwise provided in the district in which the building is constructed.

165.43 DOUBLE FRONTAGE LOTS. Buildings on double frontage lots extending through from street to street shall be buffered from the rear street by a buffer wall and access to the rear street shall be prohibited.

165.44 REAR YARDS ADJACENT TO ALLEYS; HOW COMPUTED. ADMINISTRATION AND ENFORCEMENT BUILDING PERMITS AND CERTIFICATES OF ZONING COMPLIANCE

165.46 ADMINISTRATION AND ENFORCEMENT. The provisions of these zoning chapters shall be enforced and administered by the Zoning Administrator. If the Zoning Administrator shall find that any of the provisions of these zoning chapters are being violated, the Zoning Administrator shall notify in writing the person responsible for such violations, indicating the nature of the violation and ordering the action necessary to correct it. The Zoning Administrator shall order discontinuance of illegal use of land, buildings or structures; removal of illegal buildings or structures or of additions, alterations or structural changes thereto; discontinuance of any illegal work being done; or shall take any other action authorized by this chapter to insure compliance with or to prevent violation of its provisions.

165.47 CERTIFICATES OF ZONING COMPLIANCE FOR NEW, ALTERED OR NONCONFORMING USES. It is unlawful to use or occupy or permit the use or occupancy of any building or premises, or both, or part thereof hereafter created, erected, changed, converted, or wholly or partly altered or enlarged in its use or structure until a certificate of zoning compliance shall have been issued by the Zoning Administrator stating that the proposed use of the building or land conforms to the requirements of this chapter. Certificates of zoning compliance shall be applied for coincidentally with the application for a building permit and shall be issued within ten days after the lawful erection or alteration of the building is completed in conformity with the provisions of this chapter. A temporary certificate of zoning compliance may be issued by the Zoning Administrator for a period not exceeding six months during alterations or partial occupancy of a building pending its completion, provided that such temporary certificate may require such conditions and safeguards as will protect the safety of the occupants and the public. The Zoning Administrator shall maintain a record of all certificates of zoning compliance and copies shall be furnished upon request to any person. Failure to obtain a certificate of zoning compliance shall be a violation of this zoning code.

165.48 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATIONS, PLANS, PERMITS AND CERTIFICATES OF ZONING COMPLIANCE. Building permits or certificates of zoning compliance issued on the basis of plans and applications, approved by the Zoning Administrator, authorize only the use, arrangement, and construction set forth in such approved plans and applications, and no other use, arrangement or construction. The Zoning Administrator shall forthwith transmit to the Board all papers constituting the record upon which the action appealed from is taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Board after notice of appeal shall have been filed with said official, that by reason of facts stated in the certificate a stay would, in the opinion of the Zoning Administrator, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the Board or by a court or record on application on notice to the Zoning Administrator and on due cause shown.

165.52 FEE FOR APPEAL. Any person filing for an appeal from this zoning code shall pay a fee of $250.00.

165.53 HEARINGS; NOTICE. The Board shall fix a reasonable time for the hearing on the appeal, give public notice thereof as well as due notice to the parties in interest, and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent or by attorney.

165.56 SPECIAL EXCEPTIONS. The Board shall permit the following exceptions to the district regulations set forth in this chapter, subject to the requirements of this section:

1. To permit erection and use of a building or the use of premises or vary the height and the regulations in any location for a public service corporation for public utility purposes or for purposes of public communication, which the Board determines is reasonably necessary for the public convenience of welfare.

2. To permit the extension of a use into a district where it would be otherwise prohibited in a case where a district boundary line is so located that a lot or plot is in more than one district.

3. To hear and decide only such other special exceptions as the Board is specifically authorized to pass on by the terms of this chapter; to decide such questions as are involved in determining whether special exceptions should be granted; and to grant special exceptions with such conditions and safeguards as are appropriate under this chapter, or to deny special exceptions when not in harmony with the purpose and intent of this chapter. A special exception shall not be granted by the Board unless and until:

   A. A written application for special exception is submitted indicating the section of this chapter under which the special exception is sought and stating the grounds on which it is requested.

   B. Notice of public hearing shall be given in a newspaper of general circulation in advance of public hearing. Violations of such conditions and safeguards, when made a part of the terms under which the special exception is granted, shall be deemed a violation of this zoning code. The Board may prescribe a time limit within which the action for which the special exception is required shall be begun or completed, or both. Failure to begin or complete, or both, such action within the time limit set, shall void the special exception.

165.57 VARIANCES. The Board shall authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest where owing to special conditions, a literal enforcement of the provisions of these zoning regulations would result in unnecessary hardship. A variance from the terms of these zoning regulations shall not be granted by the Board unless and until:

1. A written application for a variance is submitted, demonstrating that:

A. Special conditions and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings, in the same district.

B. Literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter.

C. The special conditions and circumstances do not result from the actions of the applicant.

D. Granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, structures or buildings in the same district.

No nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

6. The Board shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this chapter and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

In granting any variance, the Board may prescribe appropriate conditions and safeguards in conformity with these zoning regulations. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted shall be deemed a violation of these zoning regulations. Under no circumstances shall the Board grant a variance to allow a use not permissible under the terms of these zoning regulations in the district involved or any use expressly or by implication prohibited by the terms of these zoning regulations.

165.58 DECISIONS OF THE BOARD OF ADJUSTMENT. In exercising the above-mentioned powers, the Board may so long as such action is in conformity with the terms of this chapter, reverse or affirm wholly or partly or may modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision or determination as ought to be made and to that end shall have powers of the Zoning Administrator from whom the appeal is taken. The concurring vote of three members of the Board shall be necessary to reverse any order, requirement, decision or determination of the Zoning Administrator or to decide in favor of this applicant on any matter upon which it is required to pass under this chapter or to effect any variation in the application of this chapter.

165.59 APPEALS FROM DECISION OF THE BOARD OF ADJUSTMENT. Any taxpayer or any officer, department, Board or Bureau of the City or any person or persons

jointly or severally aggrieved by any decision of the Board of Adjustment may present to a court of record a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within thirty (30) days after the filing of the decision in the office of the Board. The court may reverse or affirm wholly or in part, or may modify the decision brought up for review.

DUTIES OF ADMINISTRATIVE OFFICER, BOARD OF ADJUSTMENT COUNCIL AND COURTS ON MATTERS OF APPEAL

165.60 DUTIES OF ADMINISTRATIVE OFFICER, BOARD OF ADJUSTMENT, COUNCIL AND COURTS ON MATTERS OF APPEAL. It is the intent of these zoning regulations that all questions of interpretation and enforcement shall be first presented to the Zoning Administrator for resolution and decision. In the event the questions of interpretation are not satisfactorily resolved by the interpretation of the Zoning Administrator, then the matter of questions of interpretation shall be submitted to the Board of Adjustment for decision. The decision of the Board of Adjustment may be appealed to the District Court of Iowa in and for Howard County. It is the further intent of this chapter that the duties of the City Council in connection with this chapter shall not include hearing and deciding questions of interpretation and enforcement since questions of interpretation and enforcement shall be first decided by the Zoning Administrator and if a dispute still arises then the Board of Adjustment shall decide the matter and issues. Under these zoning regulations, the City Council shall have only the duties of:

1. Considering and adopting or rejecting proposed amendments or the repeal of these zoning regulations as provided by law.

2. Considering applications for special permits for temporary uses as specified in Sections 165.26 through 165.31 of this chapter.

165.61 CHANGES AND AMENDMENTS, MAP REPLACEMENT AND ZONING OR ANNEXED AREAS. The City Council may on its own motion or on petition after public notice and hearing as provided by law, and after report by the Commission, amend, supplement or change the boundaries or regulations herein or subsequently established. Any owner or owners of property may present a petition duly signed and verified, requesting an amendment, supplement or change in the regulations prescribed for a district or part thereof. Such petition shall be signed by the owners of at least 50 percent of the area included in such proposed change and by the owners of 50 percent of the property within 300 feet therefrom, and said petition shall be filed with the Commission. The Commission shall make a report to the City Council within 60 days from the date of receipt of such petition. In case the proposed amendment, supplement or change be disapproved by the Commission, or in case of a protest against any proposed amendment or change signed by the owners of 20 percent or more, either of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof, extending the depth of one lot or not to exceed 200 feet therefrom, or of those directly opposite thereto, extending the depth of one or not to exceed 200 feet therefrom, or of those directly opposite thereto, extending the depth of one lot or not to exceed 200 feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of at least three-fourths (3/4) of all the members of the Council.

165.62 RENEWAL OF PETITION AFTER DENIAL. Whenever a petition requesting an amendment, supplement, or change of any regulation prescribed by this chapter has been denied by the City Council, such petition cannot be renewed for one year thereafter unless it be signed by the owners who previously objected to the change; this provision, however, shall not prevent the City Council from action on its own initiative in any case or at any time as provided in this section.

165.63 MAP REPLACEMENT. In the event that the Official Zoning Map becomes damaged, destroyed, lost or difficult to interpret because of use, the City Council may by ordinance adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Zoning Ordinance or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the Mayor attested by the City Clerk, under the following words: *This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted (date of adoption of map being replaced) as part of Ordinance No. __________ of the City of Cresco, Iowa.*

165.64 ZONING OF ANNEXED AREAS. Any land annexed to the City after the effective date of this chapter shall be zoned A Agricultural until the Commission and Council shall have studied the area and adopted a final zoning plan for the area in accordance with Section 165.61 of this chapter. Said final zoning plan shall be adopted within six (6) months of date of annexation.

165.65 COMPLAINTS. Whenever a violation of this chapter occurs, or is alleged to have occurred, any persons may file a written complaint. The complaint shall state fully the causes and basis of the complaint and the particular ordinances of the City of Cresco that are violated. The complaint shall be filed with the Zoning Administrator, and the Zoning Administrator shall immediately investigate the complaint and order in writing what action shall take place on the complaint as provided in this Code of Ordinances. The Zoning Administrator may recommend that a charge be filed under the particular ordinance that is alleged to be violated with the charge being filed before the County Magistrate in the Office of the Clerk of the District Court of Howard County at Cresco, Iowa, or the Zoning Administrator may recommend to the complainant that zoning variance be applied for and heard by the Board of Adjustment.

165.66 ENFORCEMENT. All departments, officials and employees of the City who are vested with the duty or authority to issue permits or licenses shall issue no such permit or license for any use, structure or purpose if the same would not conform to the provisions of this chapter.

EDITOR'S NOTE

Ordinance No. 442, adopting a new Official Zoning Map on November 19, 2012, and the following ordinances which have been adopted amending the Official Zoning Map described in Section 165.03 of this chapter have not been included as a part of this Code of Ordinances, are hereby specifically saved from repeal and are in full force and effect.

20. "Surveyor" means a registered Surveyor authorized to practice surveying as defined by the Registration Act of the State of Iowa.

170.04 PROCEDURE. In obtaining final approval of a proposed subdivision by the Commission and the Council, the subdivider shall submit a preliminary plat and a final plat in accordance with the following:

1. The subdivider shall first prepare and file with the City Clerk four (4) copies of a preliminary plat conforming in detail to the requirements set forth in this chapter. Six (6) copies of the preliminary plat shall be submitted for subdivisions outside the corporate limits of the City.

2. The City Clerk shall forthwith refer two (2) copies to the City Engineer and two (2) copies to the Commission. In the case of a subdivision outside the corporate limits of the City, the City Clerk shall refer two (2) copies of the preliminary plat to the County Board of Supervisors and keep the County Engineer advised of the status of the plat and actions taken thereon.

3. The City Engineer shall carefully examine said plat as to its compliance with the laws and ordinances of the City, the existing street system, and good engineering practices, and shall as soon as possible, submit findings in duplicate to the Commission.

4. The Commission shall upon receiving the Engineer's report as soon as possible consider said report and tentatively pass upon the plat. It shall then set forth its recommendations in writing whether of approval, modification, or disapproval. In case of modifications or disapproval, it shall give its reasons therefor. The Commission shall forthwith return one copy of the approved preliminary plat to the subdivider.

5. Upon approval of the preliminary plat by the Commission, the subdivider may proceed with the preparation of the final plat together with any detailed construction drawings and specifications for the improvements required under this chapter.

6. Upon tentative approval by the Council to said plat, the subdivider shall then file a final plat with the City Clerk in accordance with the Statutes of the State of Iowa.

7. Before submitting the final plat to the Commission for approval, the subdivider shall furnish all plans and information as listed in Section 170.07 of this chapter necessary for the detailed engineering consideration of the improvements required under this chapter and obtain approval of the City Engineer, which shall be endorsed thereon.

21. The final plat shall be filed in duplicate together with a certificate from the City Engineer that the final plat is substantially in accord with the preliminary plat as approved by the Commission.

22. For the final plat approval, the subdivider shall submit to the Commission:

   A. Final plat filed in duplicate.

   B. Performance bond in the amount approved by the City Engineer if improvements have not been completed.

   C. One copy of the certified approved plans, profiles, cross sections, and specifications.

D. A certificate from the City Engineer that the final plat is substantially in accord with the preliminary plat as approved by the Commission.

23. The Commission shall then consider the final plat and if the same is approved shall submit their recommendation of approval to the City Council together with a certified copy of their resolution showing the action of the Commission.

24. The City Council shall then consider the plat and if the same is acceptable and in accordance with this chapter, the Council shall accept the same. If said plat is disapproved by the Council, such disapproval shall point out in writing wherein said proposed plat is objectionable.

25. The passage of a resolution by the Council accepting the plat shall constitute final approval of the platting of the area shown on the final plat, but the subdivider or owner shall cause such plat to be recorded in the office of the County Recorder of Howard County, Iowa, as provided in Chapter 354, *Code of Iowa*, and amendatory acts thereto and shall file satisfactory evidence of such recording in office of the City Clerk before the City shall recognize the plat as being in full force and effect.

170.05 SUBDIVISION DESIGN STANDARDS. The standards and details of design herein contained are intended only as minimum requirements so that the general arrangement and layout of a subdivision may be adjusted to a wide variety of circumstances; however, in the design and development of a plat, the subdivider should use standards consistent with the site conditions as to assure an economical, pleasant and durable neighborhood.

1. Blocks.

A. No block shall be longer than 1,320 feet, except as approved by the Commission.

B. At street intersections, block corners shall be rounded with a radius of not less than 20 feet, where, at any one intersection a curve radius has been previously established, such radius shall be used as standard.

2. Buffers.

A. A Buffer Wall. Such shall be not less than six feet in height; constructed of a permanent low maintenance material such as concrete block, cinder block, brick, concrete, precast concrete, tile block, etc.; the wall shall be designed by an architect or engineer for both structural adequacy and aesthetic quality; the use of weather resistant wood, metal or manufactured substitutes may be used as an accessory material for aesthetic quality.

B. A Buffer Park. Such park shall be not less than 60 feet in width; designed and landscaped by a qualified architect, engineer, or landscape architect; predominant planting shall be of evergreen type trees, shrubs, and plants so as to assure year-round effectiveness; density and height of planting shall be adequate to serve as a solid and impenetrable screen.

3. Easements. Easements for utilities, of not less than 20 feet in width shall be provided along rear or side lot lines or along alleys if needed. Whenever any stream or important surface water course is located in an area that is being subdivided, the subdivider shall, at his or her own expense, make adequate provision for straightening or widening the channel so it will properly carry the surface water, and shall provide and dedicate to the City an easement along each side of the stream. Such easements shall be for the purpose of widening, improving, maintenance or protecting the stream.

The width of such easements shall be not less than 20 feet each, plus the stream design width, and the total width of the easement shall be adequate to provide for any necessary channel straightening or relocation.

4. Improvements. The subdivider shall install and construct all improvements required by this chapter. All required improvements shall be installed and constructed in accordance with plans and specifications, under the supervision of the designing engineer, and approved by the City Engineer.

A. Curb and Gutter. The curb and gutter shall be constructed to the grade and specifications approved by the City Council after receiving the report and recommendation of the City Engineer via the Commission. Curb and gutter shall be required to be constructed by the subdivider when the development phase becomes active.

B. Drainage. All subdivisions shall include storm drainage plans for the positive removal of storm waters. Such plans shall be prepared by a registered engineer and approved by the City Engineer. The following criteria shall be considered minimum standards:

(1) Run-off for street and limited area drainage shall be determined by the rational method.

(2) Area run-off shall be determined by a suitable empirical formula.

(3) Storm frequency chart for determination of rainfall intensity and duration, shall be not less than 10 years.

(4) The system shall be designed with the use of materials, flow velocities and sizes, so as to assure long life, low maintenance and self-cleaning of the drainage facilities. Storm sewers less than 15 inches inside diameter must be approved by the City Engineer.

(5) Underground storm drainage facilities shall be located to comply with the *Typical Standards for Utility Locations within Public Right-of-Ways* shown on Sketch No. 1 at the end of this chapter.

(6) Storm water drainage shall not be required to be constructed by the subdivider when lots are subdivided; however, at the time when the subdivider is required by the City to construct a street to the grade designated and approved by the City Engineer, the subdivider shall provide and install at subdivider's expense storm water drainage lines (pipes) along the edge of the street. The storm water lines (pipes) shall be capped until such time as the surface intake drains are installed and connected to the storm water lines (pipes) and until the street is paved with concrete or asphalt. The intake drains shall be installed at intervals along the edge of the street, as determined by the City Engineer, where the grade is less than a 2% grade. The City shall have the right to assess any part or all of the surface intake drains to the adjoining property owners as provided by either the *Code of Iowa* or this Code of Ordinances. The costs of installing the storm sewer lines (pipes) shall be paid by the subdivider.

C. Gas. Gas mains shall be installed underground and located to comply with the *Typical Standards for Utility Locations Within Public Right-of-Ways* shown on Sketch No. 1 of this chapter.

D. Street Construction. The subdivider shall be required to construct a street of Class C Aggregate to the grade and specifications designed by a registered engineer hired and paid for by the subdivider. The plans of the designed street by the subdivider's engineer shall be approved by the City Engineer in writing prior to construction. The City reserves the right to specify the width and/or design of the street taking into consideration the nature and composition of the neighborhood, the width and design of surrounding streets, the City's comprehensive plan and such other criteria as the City deems appropriate. When the street has been constructed by the subdivider and approved in writing by the City Engineer, then title to the street shall be conveyed by Warranty Deed or by dedication to the City by the subdivider, free of any liens or encumbrance. Upon 80 percent of the development completion or 5 years from the time of final plat acceptance, whichever comes first, the City will install a concrete road with 100 percent of the expense being assessed to the property owner. The assessment will be over a 10-year period by the City at a percentage rate that the City deems necessary.

E. Sidewalks. Sidewalks may be required by the City Council if they are considered necessary for the general welfare and safety of the community. Sidewalks shall be constructed to the grade approved by the City Council after receiving the report and recommendation of the City Engineer.

F. Sewer. The City Council may require each subdivider to provide each lot a connection to public sanitary sewer. Further, where the existing sewer may be reasonably extended through the subdivision so as to provide for continuous future development, such provisions shall be made. Such sanitary sewers shall be located in the center or the street or on public easement as approved by City Council and all house laterals shall be installed to the right-of-way line prior to paving of the street. Sanitary sewers shall have a minimum diameter of eight inches and be made available to each lot. Any plat that cannot reasonably be served by public sewer shall show results of soil percolation tests made by the engineer preparing the plat. Such tests shall be in accordance with the State Board of Health. The Designing Engineer shall furnish the City with three (3) certified copies of as-built plans and certify that the facilities have been installed in accordance with the plans and specifications. As-built plans shall specifically show service line stub locations.

G. Utility Cables. Overhead or underground cables shall be located to comply with the *Typical Standards for Utility Locations Within Public Right-of-Ways*, shown on Sketch No. 1 and the end of this chapter, or shall be placed at the back lot lines within the area of perpetual easement.

H. Water Lines and Hydrants. Where a public water main is accessible, the Council may require that the subdivider connect with such water main and provide a water connection. Hydrants must comply with City policy and be approved by the Superintendent of the Water Department before installation. Water mains shall have a minimum diameter of six (6) inches with larger

sizes for feeder mains. Water mains shall be located to comply with the *Typical Standards for Utility Locations Within Public Right-of-Ways*, shown on Sketch No. 1 at the end of this chapter, or shall be placed at the back lot lines within the area of perpetual easement, with a minimum cover of 66 inches. Water lines shall be available to each lot, and such service lines shall be installed prior to paving of the street. The designing engineer shall furnish the City with three (3) certified copies of as-built plans and certify that the facilities have been installed in accordance with the plans and specifications. As-built plans shall specifically show service line stub locations and fire hydrant locations.

Before the City Council approves the final plat, all of the foregoing improvements shall be constructed and accepted by formal resolution of the City Council. Before passage of said resolution of acceptance, the City Engineer shall report that said improvements meet all City specifications and ordinances or other requirements and agreements between the subdivider and the City. This requirement may be waived if the subdivider will post a performance bond or certified check with the City guaranteeing that said improvements will be constructed within a period of one year from final acceptance of the plat; however, if a performance bond is posted, final acceptance of the plat will not constitute final acceptance by the City of any improvements to be constructed. Improvements will be accepted only after their construction has been completed and no public funds will be expended in the subdivision until such improvements have been completed and accepted by the City. If a performance bond is posted, such bond shall be subject to review by the City Attorney prior to acceptance; shall specifically assure the expedient installation and completion of all improvements within the specified construction time period; and shall indemnify the City from any and all costs or losses of the development and construction. The Council may waive the requirements for the construction and installation of some or all of the foregoing improvements in cases of resubdivision where only the size, shape, and arrangement of the lots is being changed and no new streets are required and in cases of dedications of land or rights-of-way to public use where such dedication is in excess of the needs of the subdivision and is desired by a public agency in lieu of a purchase or condemnation proceeding. The City shall not be obligated to consider the costs of paving a street with either concrete or asphalt and the installation of surface intake drainage connected to the subsurface storm water lines until such time as 80 percent of the lots have been sold and new houses have been constructed on all of the said 80 percent sold lots.

5. Lots.

A. Corner lots shall be not less than 20 feet greater in width than the minimum required interior lot width so as to permit adequate building setbacks on both front and side streets.

B. Double frontage lots other than corner lots, shall be prohibited except where such lots back on to a major street or highway or except in the case of large commercial or industrial lots. Such double frontage lots shall be buffered from the rear street frontage by the methods outlined in 170.05, subsection 2 of this chapter. Ingress-egress shall be limited to the frontage street and is strictly prohibited on the rear street.

C. Each lot shall be provided by means of a public street with satisfactory access to an existing public street.

D. Each lot shall be provided with not less than 20 feet of access frontage to a public street.

E. No residential lot shall be less than the minimum width and area required by the Zoning District in which the lot is located.

F. For the purpose of complying with minimum health standards, the following minimum lot sizes shall be observed:

(1) Lots that cannot be reasonably served by an existing public sanitary sewer system and public water mains shall have a minimum width of 100 feet, measured at the building line, and an area of not less than 20,000 square feet or the minimum permitted by the Zoning Ordinance, whichever is the larger.

(2) Lots that are not within a reasonable distance of a public sanitary sewer system but are connected to a public water supply main shall have a minimum width of 80 feet and an area of 10,000 square feet or the minimum permitted by the Zoning Ordinance, whichever is the larger.

G. Side lot lines where possible, shall be at right angles or radial to the street lines.

6. Monuments. Monuments shall be placed at block corner, point of curves, change in direction along lot lines and at each lot corner in accordance with City specifications.

7. Streets and Right-of-Ways.

A. Alleys. Alleys may be required in business areas and industrial districts for adequate access to block interiors and for off-street loading and parking purposes. Except where justified by unusual conditions, alleys will not be approved in residential districts. Dead-end alleys shall be provided with a means of turning around at the dead end thereof.

B. Circulation. The street pattern shall provide ease of circulation within the subdivision as well as convenient access to adjoining streets, thoroughfares or unsubdivided land as may be required by the Commission. In a case where a street will eventually be extended beyond the plat, but is temporarily dead ended, an interim turnaround may be required.

C. Comprehensive Plan. All proposed plats and subdivisions shall conform to the Comprehensive Plan.

D. Continuation of Existing Streets. Proposed streets shall provide for continuation or completion of any existing streets (constructed or recorded) in adjoining property, at equal or greater width, but not less than 60 feet in width, and in similar alignment, unless variations are recommended by the Commission.

E. Cul-de-Sac. Whenever a cul-de-sac is permitted, such street shall comply with the minimum requirements set forth on Sketch No. 2 at the end of this chapter as applicable.

F. Dedication. A deed to the City shall be given for all streets before the same will be accepted for City maintenance.

G. Half Streets. No half streets shall be acceptable.

H. Land Not Platted. Where the plat to be submitted includes only part of the tract owned by the subdivider, the Commission may require topography and a master plan of the entire tract of land under ownership, mortgage purchase option or other agreements for deed.

I. Major Thoroughfares. When a new subdivision, except where justified by limiting conditions, involves frontage on a heavy traffic way, the street layout shall provide motor access to such frontage by one of the following means:

(1) A parallel street supplying frontage for lots backing on to the traffic way.

(2) A series of cul-de-sac or short loops entered from and planned at right angles to such a parallel street, with their terminal lots backing on to the highways.

(3) An access drive separated by a planting strip from the highway to which a motor access from the drive is provided at points suitably spaced.

(4) A service drive or alley at the rear of the lots. Where any one of the above mentioned arrangements is used, deed covenants or other means should prevent any private residential driveways from having direct access to the traffic way.

J. Neighborhood Plan. If any overall plan has been made by the Commission for the neighborhood in which the proposed subdivision is located, the street system of the latter shall conform in general thereto.

K. Physical and Cultural Features. In general, streets shall be platted with appropriate regard for topography, creeks, wooded areas and other natural features which would lend themselves to attractive treatment.

L. Railroads. If a railroad is involved, the subdivision plat should:

(1) Be so arranged as to permit, where necessary, future grade separations at highway crossings of the railroad.

(2) Border the railroad with a parallel street at a sufficient distance from it to permit deep lots to back on to railroad; or form a buffer strip for park, commercial or industrial use.

(3) Provide cul-de-sacs at right angles to the railroad so as to permit lots to back onto the same.

M. Street Grades. Streets and alleys shall be completed to grades which have been officially determined or approved by the City Engineer. All streets shall be graded to the full width of the right-of-way and adjacent side slopes graded to blend with the natural ground level. The maximum grade shall not exceed six percent for main and secondary thoroughfares, or ten percent for minor or local service streets. All changes in grades on major roads or highways shall be connected by vertical curves of a minimum length equivalent to 20 times the algebraic difference between the rates of grades, expressed in feet per hundred, or greater, if deemed necessary by the City Engineer; for secondary and minor streets, 15 times. The grade alignment and

resultant visibility, especially at intersections, shall be worked out in detail to meet the approval of the City Engineer.

N. Street Intersections. Street curb intersections shall be rounded by radii of at least 20 feet. Streets should be laid out to intersect at right angles, and may be curved approaching the intersection in order to bring this about; no street shall intersect any other street at an angle more than five (5) degrees off right angle unless approved by the City Engineer.

O. Street Names. All newly platted streets shall be named and in a manner conforming to the prevailing street naming system. A proposed street that obviously in alignment with other existing streets, or with a street that may logically be extended although the various portions be at a considerable distance from each other, shall bear the same name. Names of new streets shall be subject to the approval of the Commission in order to avoid duplication or close similarity of names.

P. Street Widths. Streets shall have a width and cross-section as shown in the Comprehensive Plan for the type of street involved.

170.06 PRELIMINARY PLAT REQUIREMENTS. The preliminary plat of a subdivision is not intended to serve as a record plat and shall be submitted for review separately and prior to submission of the Final Plat. Its purpose is to show on a map all facts needed to enable the Commission to determine whether the proposed layout of the land in question is satisfactory from the standpoint of the public interest. The subdivider or representative of the subdivider may call at the office of the Commission in advance of the preliminary plat in order to discuss the proposed subdivision and in order to obtain information as to the requirements necessary for approval of the plat.

1. Number of Copies and Scale. As required under Section 170.04 of this chapter, four or six copies of the preliminary plat shall be submitted as prescribed for review. The scale of the map shall be one inch equals 50 feet on small subdivisions and one inch equals 100 feet on large subdivisions unless otherwise approved by the Commission.

2. Contents of Preliminary Plat.

A. Areas dedicated for public use, such as schools, parks, playgrounds and streets.

B. Boundaries of the proposed subdivision shall be labeled and indicated by a heavy line.

C. Building setback lines for frontage and side streets.

D. Buffer easement and method where required.

E. Contour lines at intervals of not more than five feet.

F. Corner radii.

G. Easements for public utility purposes.

H. Existing buildings, railroads, underground utilities, other rights-of-way and easements.

I. Location and names of adjoining subdivisions.

J. Location, names and widths of all existing and proposed roads, alleys, streets, and highway in or adjoining the area being subdivided.

K. Lot areas (approximate) of all non-rectangular lots and the area of smallest rectangular lot.

L. Lot numbers.

M. Name and address of Engineer and Surveyor.

N. Name and address of recorded owner and/or developer.

B. Any plat that cannot reasonably be served by public sewer shall show results of soil percolation tests made by the Engineer preparing the plat. Such tests shall be made in accordance with specifications approved by the City Engineer.

C. Restrictions proposed, if any, to be included in the owner's dedication of the plat.

D. Written statement of the appropriate officials of the availability of gas and electricity to the proposed subdivision.

E. Written and signed statements explaining how and when the subdivider proposes to provide and install all required improvements required by this chapter. Such statement shall acknowledge required inspections and approvals by City Engineer.

170.07 FINAL PLAT REQUIREMENTS.

1. Number of Copies and Scale. When and if the preliminary plat is approved, the subdivider shall submit six (6) copies of the final plat for review by the Commission. The scale of the map shall be one inch equals 100 feet on large subdivisions, unless otherwise approved by the Commission.

The Final Plat shall be drawn in India ink on reproducible linen or Mylar film on an 18-inch by 24-inch or 24-inch by 36-inch sheet size with a border line allowing a three-inch binding margin along left hand narrow width and a one-half-inch margin on the remaining narrow width and two long sides. The following information shall be shown on the plat.

175.01 INTENT. This chapter is adopted pursuant to the authority conferred by Chapters 329 and 414 of the *Code of Iowa*. It is hereby found that an airport hazard endangers the lives and property of users of the Cresco Municipal Airport and of occupants of land or to property in its vicinity, and also, if of the obstruction type, in effect reduces the size of the area available for the landing, taking off and maneuvering of aircraft, thus tending to destroy or impair the utility of the Cresco Municipal Airport and the public investment therein. Accordingly, it is declared that: (i) the creation or establishment of an airport hazard is a public nuisance and an injury to the area served by the Cresco Municipal Airport; (ii) it is necessary in the interest of the public health, safety, and general welfare that the creation or establishment of airport hazards be prevented; and (iii) the prevention of these hazards should be accomplished, to the extent legally possible, by the exercise of the police power without compensation. It is further declared that both the prevention of the creation or establishment of airport hazards and the elimination, removal, alteration, mitigation, or marking and lighting of existing airport hazards are public purposes for which municipalities may raise and expend public funds, as an incident to the operation of airports, to acquire land or property interests therein.

175.02 SHORT TITLE. This chapter shall be known and may be cited as "The Cresco Municipal Airport Zoning Ordinance."

175.03 DEFINITIONS. As used in this chapter, unless the context otherwise requires:

1. "Airport" means the Cresco Municipal Airport.

2. "Airport elevation" means the established elevation of the highest point on the usable landing area.

3. "Airport hazard" means any structure or tree or use of land that obstructs the airspace required for, or is otherwise hazardous to, the flight of aircraft in landing or taking off at the airport.

4. "Airport reference point" means the point established as the approximate geographic center of the airport landing area and so designated.

5. "Board of adjustment" means a board consisting of five (5) members appointed by the Cresco City Council and the Howard County Board of Supervisors.

6. "Height" for the purpose of determining the height limits in all zones set forth in this chapter and shown on the zoning map, the datum shall be mean sea level elevation unless otherwise specified.

7. "Instrument runway" means a runway equipped or to be equipped with a precision electronic navigation aid or landing aid or other air navigation facilities suitable to permit the landing of aircraft by an instrument approach under restricted visibility conditions.

8. "Landing area" means the area of the airport used for the landing, taking off or taxiing of aircraft.

9. "Landing strip" means the grass or turf covered area of the airport which is designed for and used for taking off and landing aircraft. This term shall have the same meaning throughout this chapter, as does the term "runway."

10. "Nonconforming use" means any pre-existing structure, tree, natural growth or use of land which is inconsistent with the provisions of this chapter or an amendment thereto.

11. "Non-instrument runway" means a runway other than an instrument runway.

12. "Runway" means the paved surface of an airport landing strip.

13. "Structure" means an object constructed or installed by man, including but without limitation, buildings, towers, smokestacks, and overhead transmission lines, including the poles or other structure supporting the same.

14. "Tree" means any object of natural growth.

175.04 ZONES. In order to carry out the provisions of this chapter, there are hereby created and established certain zones that include all of the land lying within the non-instrument approach zones, vertical zones, horizontal zone and conical zone. Such areas and zones are shown on the Cresco Municipal Airport Zoning Map. The various zones are hereby established and defined as follows:

1. Primary Surfaces. A primary surface zone is established, which shall be provided longitudinally on each runway extending in length 100 feet beyond each end of the two runways. The elevation of any point on the longitudinal profile of the primary surfaces, including extensions, coincides with the elevation of the centerline of runways, or extension, as appropriate. The width of the primary surfaces is 200 feet, centered upon each runway.

2. Approach Zones. An approach zone shall be provided and shall have a width of 200 feet at a distance of 100 feet beyond each end of the two runways widening thereafter uniformly to a width of 500 feet at a distance of 3,100 feet beyond each end of the two runways.

3. Vertical Zone. A vertical zone shall extend upward from the edges of the primary zones and the approach zones until they intersect with the horizontal zone.

4. Horizontal Zone. A horizontal zone is hereby established as the area within a circle with its center at the Airport Reference Point and having a radius of 5,000 feet. The horizontal zone does not include the approach zones and the vertical zone.

5. Conical Zone. A conical zone is hereby established as the area that commences at the periphery of the horizontal zone and extends outward therefrom a distance of 3,000 feet. The conical zone does not include the approach zones and vertical zones.

175.05 HEIGHT LIMITATIONS. Except as otherwise provided in this chapter, no structure or tree shall be erected, altered, allowed to grow, or maintained in any zone referenced by this chapter to a height in excess of the height limit herein established for such zone. Such height limitations are hereby established for each of the zones in question as follows:

1. Airport Approach Zones. One foot in height for each 20 feet in horizontal distance beginning at a point 100 feet from and at the centerline elevation of the end of the runway and extending to a point 3,100 feet from the end of the runway.

2. Vertical Zones. A vertical zone beginning at any point normal to and at the elevation of the centerline of the runways, extending 100 feet beyond each end thereof, extending upward to the horizontal zone from the outer edges of the primary surfaces to a height of 150 feet above the airport elevation, said height being 1,425.5 feet above mean sea level. In addition to the foregoing, there are established height limits vertically from the edges of all approach zones for the entire length of the approach zones and extending upward to the points where they intersect the horizontal zone.

3. Horizontal Zone. One hundred fifty (150) feet above the airport elevation or a height of 1,425.5 feet above mean sea level.

4. Conical Zone. One foot in height for each 20 feet of horizontal distance beginning at the periphery of the horizontal zone, extending to a height of 300 feet above the airport elevation.

Where an area is covered by more than one height limitation, the more restrictive limitations shall prevail.

175.06 USE RESTRICTIONS. Notwithstanding any other provisions of this chapter, no use may be made of land within any zone referenced in this chapter in such a manner as to create electrical interference with radio communication between the airport and aircraft, make it difficult for flyers to distinguish between airport lights and others, result in glare in the eyes of flyers using the airport, impair visibility in the vicinity of the airport or otherwise endanger the landing, taking off, or maneuvering of aircraft.

175.07 NONCONFORMING USES. The regulations prescribed by this chapter shall not be construed to require the removal, lowering, or other changes or alteration of any structure or tree not conforming to the regulations as of the effective date of the ordinance codified by this chapter or otherwise interfere with the continuance of any nonconforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which was begun prior to the effective date of the ordinance codified by this chapter and is diligently prosecuted.

175.08 MARKING AND LIGHTING. Notwithstanding the provision of Section 175.07, the owner of any nonconforming structure or tree is hereby required to permit the installation, operation, and maintenance thereon of such markers and lights as shall be deemed necessary by the City to indicate to the operators of aircraft in the vicinity of the airport, the presence of such airport hazards. Such markers and lights shall be installed, operated, and maintained at the expense of the City.

175.09 PERMIT REQUIRED. Except as specifically provided in Section 175.10 hereunder, no material change shall be made in the use of land and no structure or tree shall be erected, altered, planted or otherwise established in any zone hereby created unless a permit

therefor shall have been applied for and granted. Each application for a permit shall indicate the purpose for which the permit is desired, with sufficient particularity to permit it to be determined whether the resulting use, structure or tree would conform to the regulations herein prescribed. If such determination is in the affirmative, the permit shall be granted.

175.10 PERMIT EXEMPTION. In the area lying within the limits of the horizontal zone and the conical zone, no permit shall be required for any tree or structure less than 75 feet of vertical height above the ground, except when because of terrain, land contour or topographic features such tree or structure would extend above the height limits prescribed for such zone. Nothing contained in the foregoing exception shall be construed as permitting or intending to permit any construction, alteration or growth of any structure or tree in excess of any of the height limits established by this chapter except as set forth in Section 175.05.

175.11 PERMIT CONDITIONS.

1. Existing Uses. No permit shall be granted that would allow the establishment or creation of an airport hazard or permit a nonconforming use, structure or tree to be made or become higher, or become a greater hazard to air navigation, than it was on the effective date of the ordinance codified by this chapter or any amendments thereto or than it is when the application for a permit is made. Except as indicated, all applications for such a permit shall be granted.

2. Nonconforming Uses Abandoned or Destroyed. Whenever the Cresco Airport Commission determines that a nonconforming structure or tree has been abandoned or more than 80 percent torn down, physically deteriorated, or decayed, no permit shall be granted that would allow such structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations.

3. Variances. Any person desiring to erect or increase the height of any structure, or permit the growth of any tree, or use property, not in accordance with the regulations prescribed in this chapter, may apply to the Airport Commission for a variance from such regulations. Such variances shall be allowed where it is duly found that literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but will do substantial justice and be in accordance with the spirit of this chapter.

4. Hazard Marking and Lighting. Any permit or variance granted may, if such action is deemed advisable to effectuate the purpose of this chapter and be reasonable in the circumstances, be so conditioned as to require the owner of the structure or tree in question to permit the City at its own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

It shall be the duty of the Cresco Zoning Officer to administer and enforce the regulations prescribed herein. Said officer to be hereafter referred to as the Administrative Officer. Applications for permits and variances shall be made to the Administrative Officer upon a form furnished by the officer. Applications required by this chapter to be submitted to the Administrative Officer shall be promptly considered and granted or denied by the officer. Applications for action by the Airport Commission shall be forthwith transmitted by the Administrative Officer.

175.12 APPEALS. Any person aggrieved, or any taxpayer affected, by any decision of the Administrative Officer made in the administration of this chapter, may appeal to the Airport

Commission. All appeals hereunder must be taken within a reasonable time as provided by the rules of the Airport Commission, by filing with the Administrative Officer a notice of appeal specifying the grounds thereof. The Administrative Officer shall forthwith transmit to the Airport Commission all papers constituting the record upon which the action appealed from was taken. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Administrative Officer certifies to the Airport Commission, after the notice of appeal has been filed with it, that by reason of the facts stated in the certificate a stay would, in the Administrative Officer's opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed except by order of the Airport Commission on notice to the Administrative Officer and on due cause shown. The Airport Commission shall fix a reasonable time for hearing appeals, give public notice and due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney. The Airport Commission may, in conformity with the provisions of this chapter, reverse or affirm, in whole or in part, or modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision, or determination, as may be appropriate under the circumstances.

175.13 JUDICIAL REVIEW. Any person aggrieved, or any taxpayer affected, by any decision of the Board of Adjustment, may appeal to the Court of Record as provided in Chapter 414.15 of the *Code of Iowa*.

175.14 CONFLICTING REGULATIONS. Where there exists a conflict between any of the regulations or limitations prescribed in this chapter any other regulations applicable to the same area, whether the conflict be with respect to the height of structures or trees, the use of land, or any other matter, the more stringent limitation or requirement shall govern and prevail.
