Angie Kohlz from WHKS presented the proposed Aging Equipment Replacement Project for the wastewater treatment plant. The Nutrient Reduction Study identified equipment that needs to be replaced in the next ten years. City staff and WHKS have identified 11 priority items that need to be replaced due to age in the next five years totaling \$1,911,000. Several of the pieces that need to be replaced are 40 years old. There is a BIL Grant that may offer partial loan forgiveness up to \$1,000,000 but it is based on a first come basis through the Iowa Finance Authority SRF Loan program. The amount of the forgiveness will be unknown until the project has been bid but is estimated that it could be about 40% based on the City's demographics and other factors. Mayor Brenno called a special Cresco City Council meeting to order on October 23, 2023, at 9:30 am. Council Members Bouska, Carman, McConnell, and Kriener were present. Council Member Fortune was absent.

Council discussed the flower pot pedestals on the new downtown sidewalks. The pedestals were installed with reinforced concrete and built up to accommodate the concrete flower pots maintained by the Downtown Business Committee. However, the pedestals are turning out to be tripping hazards due to the slant of the sidewalks from the ADA compliant flat sidewalk to the curb. Other options of building elevated flower beds on the pedestals or installing decorative fences around the pedestals were discussed. The pedestals are going to be a problem with snow removal, as well as catching snow and leaves. A couple of flower pots were put on the slanted sidewalk to show how they would look without the pedestals. Council suggested that the Downtown Business Committee should be persuaded to remove the concrete flower pots and convert to hanging pots from the light poles. McConnell made the motion to remove the concrete pedestals if the change order is under \$20,000. Bouska seconded and it passed all ayes.

Carman moved to adjourn at 9:47 am. Bouska seconded and it passed all ayes. The next regular Cresco City Council meeting will be November 6, 2023, at 5:30 pm at Cresco City Hall.

The Cresco United Methodist Church would like to have a drive through for our fall dinner on Monday, November 20 from 3:30-6:00 P.M. We are proposing an "Around the Corner and Through the Alley" route for the Swiss Steak Dinner. It's worked well the last 2years. The line would start at the corner of the Methodist Church (3rd Ave. & N. Elm), proceed west on 3rd Ave, north on 2nd St. W. and through the alley, and south on North Elm to pick up their dinners by our east entrance. We will have a person by the corner of the church to direct those who want the dinner or for those who want to travel on 3rd Ave. and a person directing traffic from the alley onto N. Elm. We request traffic cones to help show the route.

Applicant:

Kubik Inc., Mark and Danna Kubik, Owners

Summary:

Kubik Inc., Mark and Danna Kubik, owners are seeking a loan for \$20,000 to go towards the renovations of their business location at 206 North Elm Street, in downtown Cresco. The Kubiks are represented by Cresco Bank & Trust, their primary financial agent, and propose to install a new membrane roof system on approximately half the existing roof that is having infiltration issues. They also propose to install solar panels on the roof and will be applying for the REAP grant and tax credits. If awarded the grant they will apply half the amount to this RLF and the other half to the bank loan. The amount being requested is at or below the limits of the Historic Downtown Loan Fund parameters which is \$90,000 and less than 50% of the total project cost. Previous renovations have transitioned the main floor into a salon & spa (The Hair Co.) and four upper story apartment units. The loan application and supporting documents were reviewed by the loan review board. The Kubiks offered a second position behind Cresco Bank & Trust for the respective commercial property along with a personal guarantee. The proposed term length was acceptable at 5 years and monthly ACH payments would be established as detailed in the program guidelines, which is 0% interest rate for the first 2 years and 3.0% interest rate for years 3-5.

Motion:

Moved by Drees, Second by Kacher

To recommend to the Cresco City Council the approval of a \$20,000 loan to Kubik, Inc. amortized over 5 years with ACH monthly payments, securities in the form of a personal guarantee and a second position on the commercial property at 206 North Elm Street, Cresco.

#### A. <u>Description of Program – Obligations of Cresco</u>

The objective of CED's RHRA program is to support a community's active efforts to increase the opportunities for good quality, available, and affordable housing. For this effort to be successful, the community must be an *active participant* and commit to *implementing the plans* they establish. To that end, this agreement sets forth several obligations the community commits to undertake that will maximize the likelihood of successful outcomes.

To successfully complete the RHRA program, Cresco, with direct guidance and engagement with CED, must complete the following elements which, in most cases, will proceed in the order stated below:

- A1. Formation of a *Housing Steering Committee* made up of at least seven to ten individuals. The composition of the Steering Committee is discussed more fully in **B** below.
- A2. Participation of two or more Housing Steering Committee representatives in an *orientation* session. This session will be held virtually one to two months after the grant award and will cover topics including:
  - ♦ Planning team composition
  - ♦ Public input survey contents and distribution (see A3 below).

- ♦ Tips for data gathering, and completing the community self-assessment (see A4 below)
- ♦ Grant logistics (IEDA stuff. how to draw grant money down, etc).
- ♦ Breakout sessions for individual communities to address community-specific details, schedules, and concerns, and to provide technical assistance (see **B** below).
- A3. Distribution and collection of a *public input survey* distributed electronically and promoted through local websites and social media to better understand public concerns and opportunties around housing issues and to assist in prioritizing action items.
- A4. The Housing Steering Committee will work with CED specialists to conduct a *community* self-assessment, consisting of a questionnaire/workbook that inventories plans, programs, funding sources, and other housing-relevant information, to help the community assess their housing needs. CED will assist the community in accessing and understanding the housing information on Cresco gathered from various sources, including the State's Housing Database.
- A5. Participate in one or more *educational workshops* where the housing committee, other interested city officials, and community members will learn about and discuss the broad range of options available to rural communities for expanding the availability, affordability and quality of local housing. This discussion will be designed around the information gathered in phase one and will highlight how the community's plans, ordinances, funding policies, and other current conditions support or inhibit the provision of various housing options. Once the committee has conducted the inventory and participated in the workshop, they will be ready to develop the basic elements of a local housing strategy.
- A6. One or more *action planning sessions* during which participants will develop housing-related short- and long-term goals and action plans for implementing those goals based on the work conducted during the first three phases. Key stakeholders, funding opportunities, specific action steps, timelines, and outcome measures will be included in the plan.
- A7. Participation by community representatives in the ISUEO Rural Housing Readiness Assessment Annual Conference, which is currently being held as a pre-summit session of the Iowa Rural Development Council Annual Summit in April. Participation in the Annual Conference prior to, or near to the start of the community's assessment process provides an opportunity for participants to learn successes and strategies from communities that have already participated in RHRA. Participation in the Annual Conference after the completion of the process provides the opportunity to share the community's successes and strategies with others. Participation may include providing updates about your housing projects, speaking or presenting as a community or part of a panel, or serving on the planning committee.

#### B. Additional Actions or Documents Needed

Cresco was required to submit a variety of documents to the IEDA Center for Rural Revitalization as part of its Rural Housing Assessment Grant application. CED specialists know from experience that communities may need greater attention to one or more of the following areas after the grant is awarded in order to maximize the benefits of the RHRA program and improve its chances of successful implementation. CED agrees to assist Cresco as necessary to:

- Diversify the membership of the Housing Steering Committee. Ideally the Housing Steering Committee should include a substantial mix of elected officials (city and county); city/county staff with housing, planning, or community development responsibilities; housing industry representatives such as realtors, bankers, developers and/or contractors; Chamber of Commerce, housing or community development corporation staff; nonprofit organizations with a housing mission; Council of Governments staff; Community Action Agency staff; churches or other organizations with outreach or household assistance programs; major private- and public-sector employers; and community representatives of immigrant populations, senior citizens, and potentially-impacted neighborhoods.
- Collect other relevant plans, studies, resolutions, and ordinances not submitted during the grant application process. which may include:
  - Previous housing studies or needs assessments from the last 10 years;
  - Downtown upper story inventory;
  - Vacant lot survey or data;
  - ♦ Comprehensive plan;
  - ♦ Current city ordinances related to housing such as zoning, subdivision, rental code, nuisance abatement and others:
  - Ordinances or resolutions enacting housing-related incentive programs such as rehabilitation grant or loan programs, down payment assistance programs, rental assistance programs, tax abatement, tax increment financing agreements, urban revitalization districts, and others.
- Adopt an official city council/county board resolution to establish both the authority to
  collaborate with CED on the RHRA and a commitment to support the work of the committee
  in achieving housing goals.

#### C. Final Report

Following completion of the educational workshops and strategic planning sessions, CED will compile a final report including all materials from all the sessions, the complete survey results, and additional resources and guidance based on the goals and action plans the community has selected as priorities within 45 days of the final action planning session.

#### D. Adherence to Agreed Upon Timeline

The Rural Housing Readiness Assessment program is a series of sequential events. Cresco agrees to work closely with the CED team to schedule and complete actions A1 through A6 above within a six (6) month timeframe, in order to provide Cresco with the requisite time to move forward on the action items identified in the final report and complete the requirements of the Rural Housing Assessment Grant.

#### E. Commitment to an Engaged Strategic Planning Product

The key to community support for housing is the broadest and most inclusive participation in planning efforts. To this end, Cresco commits to include under-represented communities, low-resource households, senior citizens, recent immigrants and minority populations in the Rural Readiness Assessment at all stages of the process.

#### F. RHRA Event Participation

In order to comply with federal reporting requirements of the United States Department of Agriculture, ISU Extension and Outreach must collect data on program participation. Cresco agrees to assist CED in collecting registration information, either through online registration or the use of a QR code at the beginning of workshop sessions.

#### G. RHRA Evaluation

Cresco agrees to assist in improving the RHRA program by providing information through workshop evaluation questionnaires, in-person and online surveys, telephone communication, and/or interviews with CED's program evaluator at select intervals during and after completion of this program.

#### H. Payment

CED's charge for providing the RHRA program is \$5,000. Payment of these funds is due to CED within 30 days of being invoiced. Should Cresco cancel for any reason during the program, except for extraordinary causes beyond the community's control, Cresco will be invoiced and responsible for payment to CED of the entire \$5,000. In the event that Cresco cancels prior to the start of the program, then Cresco shall incur no financial obligation.
